## U.S. RATIFIES TREATIES WITH CENTRAL POWERS.

With Germany Accepted First, Followed by Others With Austria and Hungary; Vote 66 to 20.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, Oct. 18.—The administration's peace program and brought a full state of peace with the principal enemy powers. Remaining now, only, are the formal exchange of ratification, except in the case of the Hungarian treaty, as that government alone has yet to complete parliamentary action.

Only three Republicans—Borah of Idaho, La Follette of Wisconsin, and Norris of Nebraska—who, abstractly, are against the treaty, voted against ratification, while 66 Democrats supported the treaty, while 20 were paired in favor of ratification.

RESIST AMENDMENTS.  
Prior to the final vote, all attempts to amend the treaty or the reservations reported by the Foreign Relations Committee were defeated. The reservations, which were adopted without a record vote, provide that the United States should not have representation on the Allied Reparations Commission or on any other international agency without consent of Congress.

Another reservation, proposed by Senator Borah, of Idaho, was also defeated. It provided that the United States should not be bound by the treaty until it had been ratified by a majority of the Senate.

Prominent speakers today were Senators Johnson, Republican, California, and Pomeroy, Democrat, Oregon. The bill was passed by a vote of 66 to 20.

Mr. Fordney charged that the company is against the plan because of its effect upon duties on goods brought from Germany and Japan. He declared this company has the entire product of factories in those countries in order to get the benefit of cheap foreign labor.

WILL PASS IN SENATE.  
The bill now goes to the Senate, where it will be passed promptly. Under the terms of the Emergency Tariff Act its operation would cease on November 27, and the purpose of the extension is to continue it effective until permanent tariff legislation is enacted. The date February 1 is fixed in the bill as a means of speeding up action on the permanent bill in the Senate.

GARVAN ATTACKED.  
Representative Fear of Wisconsin, who has been active in opposition to an embargo on dyes, made an attack upon Francis P. Garvan, former alien property custodian and head of the chemical foundation, who in a recent speech declared that members of Congress against such legislation are controlled by German dye interests.

Mr. Fordney, in advocating the bill, insisted that the emergency tariff has had a beneficial effect, and that under its operation imports have decreased. He said he regretted the necessity of extending the bill, and that he believed the permanent tariff bill should have been passed by this time if the Senate had not laid it aside for the tax bill.

## Woman and Three Men Arrested After Running Battle in Burbank

CHINA WILL PLAY SAFE.  
Secret Deal With Japan Sought.  
Shantung Parley Planned to Outlast the Washington Disarmament Meet.

BY PATRICK GALLAGHER.  
Special Correspondent of The Times.  
[BY DIRECT CABLE TO THE TIMES.]  
[Independent of every other newspaper and news organization, The Times maintains its own staff of correspondents at all important points in the Far East. By direct cable from these points to The Times, readers of this journal are assured of first, exclusive and authentic news from the great theater of world activities, now increasingly more important than any other news area on the globe.]

PEKING, Oct. 18.—Minister Obato tomorrow will present Japan's rejoinder to China's note relative to the controversy over Kiaochow, province of Shantung. The Chinese are arranging to have the conference over the Shantung issue continue longer than the Conference for the Limitation of Armament at Washington. This is because the Chinese frankly express themselves as lacking any hope of succor from the world leaders sitting at the American capital.

China's hope appears to be in a direct agreement with Japan. China fears that an agitation started by students will arouse a mob clamor that would be unfortunate at this time. Therefore, it is freely stated here, it has been decided to request Japan to negotiate secretly while publicly Peking will ostentatiously support the anti-Japanese program at the disarmament conference.

Unable to reach the car with Butler, the latter was forced to run around a hay stack. Butler fired at the car, but the bullets did not hit. Butler was then captured and taken to the Sheriff's office for help. The most important meeting was held at the Colonial office this morning, where the whole Irish delegation conferred with Winston Churchill, the Minister of Colonies. Sir J. Worthington Evans, Minister for War, Capt. Guest, the Air Minister, and Sir Gordon Hewart, the Attorney-General.

WHEAT PRICE LOWEST IN PAST FIVE YEARS.  
PORTLAND (Or.) Oct. 18.—Local wheat prices declined to the lowest level in five years today when bids on the Merchants Exchange were posted at ninety-seven cents to \$1.01 a bushel for future delivery.

THE BREAK is due to the unsettled condition prevailing in all markets throughout the country on account of threatened rail tie-up.

Two stills were raided, four prisoners taken, including one woman; Assistant Prohibition Agent Doyle, who arrived in Los Angeles from San Francisco Monday, was shot at four times, and a running gun fight took place in a skirmish with reputed violators of the Volstead Act during a raid conducted by Prohibition Agent Dan O'Leary at a secluded spot near Burbank last night.

The prisoners, now in the County Jail, are Mr. and Mrs. H. L. Butler, known as ranchers, and Charles Lathrop and Albert Blondi. Mr. and Mrs. Butler are charged with assault with a deadly weapon and operating a still. Lathrop and Blondi are charged with operating a still.

## RAIL HEADS WILL MAKE NO MOVE TO AVERT WALKOUT.

Declare Men Will Be Fighting Government; Predict Thousands Will Refuse to Leave Positions.

NEW YORK, Oct. 18.—The national railroad strike, often threatened in recent years, will actually occur this time, according to the majority of railroad officials in New York.

If there is a strike the railroads will win hands down in a week's time, according to L. F. Loree, president of the Delaware and Hudson Railroad. Other executives said that the strike would be beaten in less than a month. In its effects, according to Loree and others, it would be comparable with the outlaw strike of 1920 rather than with the last great railroad strike, which occurred in 1894.

THE reasons set forth for the belief that a strike is likely at this time though similar threats in recent years have not resulted in strikes are that the leaders of the railroad men have put themselves in a position from which it is difficult to retreat and that no concessions are likely to be made by the railroads or the government to make their retreat easier.

Further than that, the executives believe will find arrays against them the government, the railroads, and the public sentiment of the United States. The strikers, the executives believe, will find arrays against them the government, the railroads, and the public sentiment of the United States.

At present one railroad man or more is out of work. It is asserted, for every one at work, it was predicted that there would be a rush by laid-off men to get their jobs back.

It was in conformity with this policy that the Labor Board had summoned the chiefs of the railway brotherhoods not to hold a conference on the situation but to provide for the following two lines of procedure:

To support the Railway Labor Board with a view to enforcing respect for its decisions by both the employees and employers.

To bring about a lowering of transportation rates to offset reductions in wages decreed by the Labor Board.

Under the law the board has no power to enforce its decisions nor are its decisions binding upon either party. Publication is relied upon to deter either party from ignoring a decision.

FORMAL CITATION.  
A formal citation to show cause for defying the board would be the purpose of putting the unions on record and of reporting their defiance to the President, the Interstate Commerce Commission and the public, as the law provides.

## JAPAN PEACE PARTY HERE.

Notables Arrive in Bay City.  
Admiral Kato Says He Has Great Hopes for Results at Washington Meeting.

SAFETY, Oct. 18.—The Japanese delegates to the Washington disarmament conference, who arrived here today from their home-land, were entertained here tonight at a semi-official banquet, at which the United States Navy, the Army, the Federal government and the city of San Francisco were represented. The banquet concluded a day of sightseeing and getting acquainted with the city.

Admiral Kato, who is the Japanese delegate to the conference, said that he had great hopes for the results of the conference. He said that he had been in the United States for some time and had been very much interested in the country and its people.

At the banquet, Admiral Kato said that he had been in the United States for some time and had been very much interested in the country and its people. He said that he had been in the United States for some time and had been very much interested in the country and its people.

## PUT UNIONS ON RECORD.

Harding to Back Railway Board.  
President Intends to Enforce Respect for Legal Body in Rail Strike.

WASHINGTON, Oct. 18.—In his endeavor to avert the impending national railroad strike, President Harding has adopted a policy providing for the following two lines of procedure:

To support the Railway Labor Board with a view to enforcing respect for its decisions by both the employees and employers.

To bring about a lowering of transportation rates to offset reductions in wages decreed by the Labor Board.

Under the law the board has no power to enforce its decisions nor are its decisions binding upon either party. Publication is relied upon to deter either party from ignoring a decision.

## MOVING TO HALT STRIKE.

Governmental Agencies, Public and Some Unions Take Simultaneous Action.

CHICAGO, Oct. 18.—Efforts to avert the nation-wide rail strike scheduled for October 30 tonight found governmental agencies, representatives of the public and some railway labor unions taking action simultaneously which all three hope would prevent a tie-up of the transportation system.

Foremost among moves being made was a meeting between the Railroad Labor Board and heads of the five unions, which already have authorized their men to strike, called for Thursday by the board, and at the request of President Harding.

The first move by a public organization to avert a strike came when the American Farm Bureau Federation, representing 1,250,000 farmers, sent petitions to the Interstate Commerce Commission, asking an immediate 10 to 20 per cent reduction in freight rates on necessary supplies.

## Short-Lived Strike, Easy Victory Predicted by Road Officials.

## UNION CHIEFS TO OBEY CALL.

Big Five Brotherhood Heads Will Confer With Board.

Stone Replies to Charge of Joseph H. Defrees.

Declares Statement One-sided; Says Roads Broke Pact.

(By A. P. MORTIMER.)

CLEVELAND, Oct. 18.—Scene of action in the threatened nation-wide progressive railroad strike to begin October 30, shifted back to Chicago today with the announcement that the three local members of the Big Five railroad brotherhoods had accepted a request from the Railroad Labor Board that the five chief executives confer with the board in Chicago Thursday afternoon.

Telegrams requesting the conference were sent to Warren B. Stone, president of the Brotherhood of Locomotive Engineers; W. G. Lee, president of the Brotherhood of Railroad Trainmen; and W. S. Carter, president of the Brotherhood of Firemen and Enginemen, all with headquarters here. After a telephone conference Stone announced tonight that the three chief executives had accepted the invitation and would leave for Chicago Wednesday night.

OTHERS SUMMONED. Similar requests, he said, were sent to L. E. Sheppard, president of the Order of Railway Conductors and T. C. Cullen, president of the Switchmen's Union of North America, with headquarters in Cedar Rapids, Iowa, and Buffalo, respectively.

Referring to the call for the Chicago conference, President Lee said: "Of course I will attend. I will attend any conference that holds out the possibility of an open door to settle this matter. I have in mind the homes of the 150,000 men in my organization and I realize what this means to them. I will do my utmost to reach an amicable settlement."

President Stone issued a signed statement in reply to statements made by Joseph H. Defrees, president of the Chamber of Commerce of the United States to Washington yesterday, denouncing the threatened railroad strike as the most cruel and unjustifiable attack on the people and government of the United States.

The statement follows:

STONE'S STATEMENT. "In the beginning it would naturally be assumed that Mr. Defrees, speaking for the Chamber of Commerce of the United States, would be voicing the opinion of all American citizens, but in view of the one-sided statements it is the judgment of the railway workers that he is simply speaking for the millionaire element created by the miseries of the late war and now posing as great and patriotic citizens without regard to the many crippled and unemployed, who at this time appreciate to them—the war is not over."

"Mr. Defrees states that the anticipated withdrawal from the sector ice contemplates a most cruel and

## UNJUSTIFIABLE ATTACK ON THE CITIZENS AND GOVERNMENT OF THE UNITED STATES.

Mr. Defrees calls attention to the tribunal created by Congress which augmented the possibility of an amicable settlement. If Mr. Defrees will take the trouble to look into the facts he will find that the railroads are the ones who did flout the authority of the United States Railroad Labor Board and not the railroad organizations; and we suggest that Mr. Defrees look into the case of the A. B. and A. M. and N. A. Erie, Pennsylvania and other railroads for light on this subject. After making himself amenable to the truthfulness of the statements herein, he should write a supplemental statement giving the public the benefit of the facts."

## ARMY READY IN CASE RAIL STRIKE CALLED.

(By A. P. MORTIMER.)

SAN FRANCISCO, Oct. 18.—Should necessity arise during the threatened general railroad strike, the 1000 troops of the Ninth Army Area will be ready for action, Maj. Gen. William M. Wright said today. No special plans, however, are being made to add to the Ninth Area comprises the States of California, Oregon, Washington, Nevada, Montana, Utah and Wyoming. "The Army is the last resort," Gen. Wright said. "The situation will be handled by the military authorities. If they are unable to cope with it, the National Guard will be called upon to act. If the situation gets away from the National Guard then the President may see fit to call on the Army."

## HOPES RAIL STRIKE WILL BE SETTLED.

(By A. P. MORTIMER.)

TOLEDO (O.), Oct. 18.—Hope that some means of preventing the threatened railroad strike would be found was expressed today by F. P. Richardson, president of the American Federation of Railway Workers, in annual convention here.

Officers of the federation say a strike vote was taken some time ago and that members will be involved if the strike comes but that they do not invite it.

## COMMERCIAL AIRCRAFT MEN OFFER SERVICES.

(By A. P. MORTIMER.)

NEW YORK, Oct. 18.—At least 750 commercial aircraft are available for transporting passengers, mail and express in the event of a railroad strike, the Manufacturers Aircraft Association has informed Secretary Hoover in a telegram. The craft carry from two to twelve persons or their equivalent in weight and have a maximum range of flight from 200 to 800 miles.

## QUICK DEFEAT OF STRIKE SEEN.

(Continued from First Page.)

tion of the strike order unless they were able to show that large concessions from the other side produced the cancellations. Some of the leaders are hard pressed to hold their present positions against rivals and enemies. Their strike order is said to be comparable to the strategy of a nation which averts a civil war by opening a foreign war.

Instead of offering concessions the railroads will continue to press their proposed application for a further 10 per cent reduction in the wages of their employees, according to Lore.

NO CONCESSIONS POSSIBLE. "No concessions from the railroads are possible, as far as I can see," he said. "The railroads are not parties to the situation at all. The strike is ordered against a decision of the Railroad Labor Board, which is to say that it is a strike against the United States. The railroads are simply among the victims."

Lore said he did not regard the strike order as a bluff. "However, if the men walk out we will win hands down," he continued. "One of the changed conditions since 1914 is the fact that food can be sent today parcel post and such shipments would have the protection accorded 'the United States mail,' which, in 1914 was protected by President Cleveland by the use of the Regular Army. But the strike will not be handled in the same way this time. Other resources of the people have been tremendously increased. Automobile trucks would be of great help, and there are plenty of idle ships which would help in feeding cities near the coast."

## PUBLISHED OPPOSED.

Asked what public opinion would be, Lore replied: "I think it would be very much against the strikers. I don't see how the public could, on a wage question, support strikers who are 40 per cent better off than they were in 1914 and about 60 per cent better off than the average of the public. Most of the rest of us are Americans, and we are not going to support a strike which is costing 5,000,000 unemployed in the country."

When he was asked if any of the railroads had considered the scheme of waiving a part of the wage reduction, he said:

"I think not. My criticism is that the wage reduction did not go far enough. That reduction was far from sufficient to wipe out the extraordinary increases obtained by the railroad men in view of special conditions and it leaves their earnings far ahead of those of similar classes of labor."

Lore said that as far as he knew, none of the railroads would attempt to prevent the strike by injunction processes or other legal means. Any such attempt, he said, would have to be initiated by the Railroad Labor Board.

## Steady Jobs Offered by Railroads.

(By A. P. MORTIMER.)

JERSEY CITY, Oct. 18.—Newspapers in many cities in New Jersey today carried advertisements from the Central Railroad of New Jersey announcing that permanent positions would be guaranteed successful applicants for employment as locomotive engineers, firemen, conductors, trainmen and yardmen to fill "vacancies as they occur."

## MUST NOT BOW TO THE UNIONS.

President Has to Beat Them. View in Congress.

"Big Four" Men Voted Strike Only as Bluff.

Conservatives May Cut Away From Radicals.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 18.—President Harding is facing one of the acute crises of the administration in the pending railroad strike. In his efforts to reduce railroad rates, with a compensating reduction in railroad wages, he will have the support of the great bulk of the public, which deplored the surrender of a former administration when it passed the Cummins-Each Bill and which is being dealt with in the manner prescribed by that law.

If the law fails to prevent strikes in the manner contemplated, it will be time to adopt other measures and possibly to propose additional legislation. That time has not come, in the opinion of the President, and in the meantime the public should remain calm and lend its support to a full and fair trial of the law.

In this connection it is recalled that the leaders of organized labor served notice on Congress before the bill was passed that it would not serve to avert strikes and that labor would not hesitate to strike in defiance of any order of the Labor Board deemed unacceptable. Officials of the Labor Board and the Interstate Commerce Commission, which is in touch with the responsible leaders among the railroad owners, are endeavoring to bring about a general reduction in freight rates, a more or less voluntary proposal, and the public that the benefits of railroad wage reduction were being passed on to the consumer.

## MODUS VIVENDI.

"The suggestion was made merely as a 'modus vivendi' for solving the present transportation problem. We suggested that the roads cease reductions for a time and reduce rates as a step in the revival of industry. We believe such action would result in helping bridge the business depression and lower the cost of living."

When after the public has been given a breathing spell, the roads would be at liberty to come back to the board and further requests for wage reductions."

Proposals of the American Farm Bureau, in a statement by J. R. Howard, its president. The federation, he said, was eager and willing to meet with either railroad executives or employees, or with both, if anything could be accomplished in preventing the threatened strike. Telegrams asking for a conference have been sent to both sides.

A 10 per cent reduction on basic commodities, including farm products, would be a great relief, possibly even, would amount to a 20 per cent reduction in the cost of living, he said. A 10 per cent reduction on everything, he said, would amount to a 20 per cent reduction in the cost of living, he said. A 10 per cent reduction on everything, he said, would amount to a 20 per cent reduction in the cost of living, he said.

## PRESENTED PROPOSAL.

President Howard asserted that he had presented a proposal for an immediate reduction in freight rates at a recent meeting of railroad executives in New York. The executive committee of the railroad executives, he said, approved the proposal, but the American Farm Bureau, he said, was not satisfied with it. It appears that the greatest factor in transportation costs is represented in wages.

We are now passing through a period of readjustment of prices of commodities and wage levels incident to the activities of production and distribution. The unwillingness of any group which is in a position to control the distribution to do their full share toward effecting a proper readjustment of costs and wages, necessarily retards a return to normalcy. The interests of all groups and classes of people in this readjustment are of paramount importance.

## SAYS NORTH DAKOTA IS ALL RIGHT.

Banker From Townley State Denies That Finances Are in Dubious Shape.

ANSON B. Edgerly, fiscal agent here of the Bank of North Dakota, "denies inferences in dispatches from the Northwest on the eve of the political fight that the State finances are anything but sound, or that there has been any juggling of them."

"The bank's statement shows a balance of \$11,000 for two years," he said, "and it has been going for two years on a net capital of \$2,000,000, operating under the laws of the State, approved by the United States Supreme Court. The \$11,000 has been a net profit."

"The State's resources cannot be belittled. Aside from a vast acreage of agricultural land, North Dakota has 600,000,000 tons of coal deposits, owned by the State. More than \$4,000,000 worth of Bank of North Dakota bonds have been sold in the United States, testifying the soundness of the institution."

## TRY TO HALT RAIL STRIKE.

(Continued from First Page.)

The Switchmen's Union of North America. The conference was called for the avowed purpose of preventing a strike, according to Ben Hooper, vice-chairman of the Labor Board. He returned tonight from Washington, where he and other members of the public group conferred with President Harding.

It is the hope of all elements of the board to do everything possible to prevent a strike, he said, after a conference with board members. "What the procedure will be on Thursday I cannot say."

Hooper refused to say whether the board regarded the conference summons as an investigation of a threatened violation of the board's orders. He pointed out, however, that there would be no violation of the board's July 1 wage reduction order until the men walked out.

Explaining further the public statement issued by the group in the morning, Hooper said that the board "recognized that there was a universal demand for the reduction of freight rates."

## WANT TO PREPARE.

Practically everyone in the Senate and House, except those openly avowing the union propaganda, are in favor of the widest and most complete preparations by the government for any emergency that may result from a national railroad walkout, and then to let nature take its course.

Postmaster-General Hays and Atty.-Gen. Daugherty, together with the Secretary of War, insist that all mail service will be operated in the same way this time. Other resources of the people have been tremendously increased. Automobile trucks would be of great help, and there are plenty of idle ships which would help in feeding cities near the coast."

Asked what public opinion would be, Lore replied: "I think it would be very much against the strikers. I don't see how the public could, on a wage question, support strikers who are 40 per cent better off than they were in 1914 and about 60 per cent better off than the average of the public. Most of the rest of us are Americans, and we are not going to support a strike which is costing 5,000,000 unemployed in the country."

When he was asked if any of the railroads had considered the scheme of waiving a part of the wage reduction, he said:

"I think not. My criticism is that the wage reduction did not go far enough. That reduction was far from sufficient to wipe out the extraordinary increases obtained by the railroad men in view of special conditions and it leaves their earnings far ahead of those of similar classes of labor."

Lore said that as far as he knew, none of the railroads would attempt to prevent the strike by injunction processes or other legal means. Any such attempt, he said, would have to be initiated by the Railroad Labor Board.

## Steady Jobs Offered by Railroads.

(By A. P. MORTIMER.)

JERSEY CITY, Oct. 18.—Newspapers in many cities in New Jersey today carried advertisements from the Central Railroad of New Jersey announcing that permanent positions would be guaranteed successful applicants for employment as locomotive engineers, firemen, conductors, trainmen and yardmen to fill "vacancies as they occur."

THE eleven great railroad unions, which have not yet formally issued a strike order, are reported to have voted a walkout with the brotherhoods, will go ahead with their proposed meetings.

## SHIP CRAFT TO MEET.

The first meeting will take place here tomorrow when the executive council of the ship crafts, made up of the 47,000 members of the unions, will go into session. This council, will probably decide to carry out the railroad strike, according to B. M. Jewell, head of the ship crafts. The committee has the power to authorize a strike, or if it does not care to take full responsibility, to call a meeting of the 1900 general chairmen.

The twelve divisions of the maintenance of way organization, representing a quarter of a million railroad employees, will meet tomorrow, while telegraphers meet Friday and clerical employees of the other unions have also scheduled meetings for this week.

Jewell and others have steadfastly opposed a strike on wage cuts and have announced that they will fight vigorously against a walkout order being taken.

ANSON B. Edgerly, fiscal agent here of the Bank of North Dakota, "denies inferences in dispatches from the Northwest on the eve of the political fight that the State finances are anything but sound, or that there has been any juggling of them."

"The bank's statement shows a balance of \$11,000 for two years," he said, "and it has been going for two years on a net capital of \$2,000,000, operating under the laws of the State, approved by the United States Supreme Court. The \$11,000 has been a net profit."

"The State's resources cannot be belittled. Aside from a vast acreage of agricultural land, North Dakota has 600,000,000 tons of coal deposits, owned by the State. More than \$4,000,000 worth of Bank of North Dakota bonds have been sold in the United States, testifying the soundness of the institution."

## WILL STAND BY LABOR BOARD.

(Continued from First Page.)

strikes embodied in the transportation Act is altogether futile. Mr. Harding believes that the Labor Board should cite any individual or organization ignoring its decisions. He approves the recent action of the board in citing the Pennsylvania Railroad to show cause for its refusal to comply with a decision on working rules involving the movement of essential commodities. He regards the summons to the brotherhood chiefs as in the same category.

The President's attitude is unanimously supported by the members of the Cabinet, which met today and discussed the strike situation only informally and briefly. The question was deemed one that is being dealt with by the authorities constituted by the Transportation Act and therefore not one requiring as yet the formal consideration of the Cabinet.

CONDITION FORESEEN. The President takes the position that there is no occasion for undue excitement over the situation, which he foresees as a possible if not probable contingency by Congress when it passes the Cummins-Each Bill and which is being dealt with in the manner prescribed by that law.

If the law fails to prevent strikes in the manner contemplated, it will be time to adopt other measures and possibly to propose additional legislation. That time has not come, in the opinion of the President, and in the meantime the public should remain calm and lend its support to a full and fair trial of the law.

## LOWER FREIGHT RATES.

While exerting his influence to procure obedience of the law, the President is also endeavoring to bring about a general reduction in freight rates, a more or less voluntary proposal, and the public that the benefits of railroad wage reduction were being passed on to the consumer.

The question of rate decreases is being discussed by the Interstate Commerce Commission, which is in touch with the responsible leaders among the railroad owners. A reduction may materialize either as a more or less voluntary proposal by the railroads or as a measure imposed on the roads by the government.

Negotiations, inspired by the President, are in progress and administration officials are confident that it will be possible to announce a rate reduction within the next few days.

On the question of freight rates Representative Anderson of Minnesota, chairman of the joint committee on agricultural inquiry, said today:

## GREAT PROBLEM.

"One of the greatest problems before the American people today is the establishment of a rational economic system of distribution and one of the greatest factors in the cost of distribution is transportation. It appears that the greatest factor in transportation costs is represented in wages."

We are now passing through a period of readjustment of prices of commodities and wage levels incident to the activities of production and distribution. The unwillingness of any group which is in a position to control the distribution to do their full share toward effecting a proper readjustment of costs and wages, necessarily retards a return to normalcy. The interests of all groups and classes of people in this readjustment are of paramount importance.

## WILEY B. ALLEN COMPANY

Oldest and Largest Music House with Stores in All Principal Cities of Pacific Coast.

It DOES Make a Difference where you buy your Victrola.

Victrola value is multiplied by W. B. Allen's SPECIAL ADVANTAGE to buyers.

The greatness and coastwide scope of this house of 48 years' reputation has a practical and very important bearing upon the satisfaction you secure in buying a Victrola.

There is pleasure in choosing from a wide and complete a stock as you will find here—an assurance in dealing with a house of such established character and reputation—a knowledge that your investment is sold right and that it will be EXACTLY what you after you have purchased it.

Come in, and hear the Victrola and the special advantage of this house, where country and city fine arts.

Special Combination XI (Price \$150) You may pay \$10.00 down and \$10.00 monthly. Total \$165.

## PROPOSALS FOR RAIL WORKERS.

(Continued from First Page.)

other organizations now considering a walkout. Proposal of platform on which final settlement might be reached, to include these points, with the proviso that there will be no strike.

Withdrawal for a definite period of the proposed request by the roads for further wage decreases. Immediate reduction of freight rates.

This leaves open the two points said by the train service men to be paramount. One is the question of time and the other is the question of the revision of rules and working conditions. High labor leaders have been insisting that these two points form the basis of contention, although the brotherhoods' strike vote was taken on the July 1 wage reduction.

Just how the Labor Board proposes to get around these two stumbling blocks was not made clear.

## RATE REVISION.

"I understand the Interstate Commerce Commission has a number of important rate reduction cases on hand, on which it will act immediately," Judge Barton explained. "That will give us something to work on. Of course the Interstate Commerce Commission has no jurisdiction on wage questions."

Judge Barton declined to give his personal views of the situation and said he could not speak for the board, but made it clear he did not wish to conceal anything "which the board could, with propriety, give out."

The actual basis of the Thursday conference, he said, was indefinite tonight and would not be formulated until the entire membership of the board compared suggestions tomorrow.

Mr. Chairman, I am confident that the strike will be averted, and that the public will be benefited by the reduction in freight rates. The meeting, according to the telegram, is to be held Friday.

## Road Officials Will Meet to Discuss Plans.

(By A. P. MORTIMER.)

SAN ANTONIO (Tex.), Oct. 18.—A telegram announcing a meeting of railroad executives of all important lines in the United States affected by the strike order, to be held in their respective districts to discuss the situation and steps to be taken in carrying out the program decided upon at the executive meeting in Chicago October 14, was received in railroad circles tonight.

## SUGAR-BEET INDUSTRY TO GET FIRM.

(By A. P. MORTIMER.)

WASHINGTON, Oct. 18.—The sugar-beet industry is expected to be made to the War Finance Corporation, which is now making a study of the industry, to be made to the War Finance Corporation, which is now making a study of the industry, to be made to the War Finance Corporation, which is now making a study of the industry.

THE eleven great railroad unions, which have not yet formally issued a strike order, are reported to have voted a walkout with the brotherhoods, will go ahead with their proposed meetings.

## SHIP CRAFT TO MEET.

The first meeting will take place here tomorrow when the executive council of the ship crafts, made up of the 47,000 members of the unions, will go into session. This council, will probably decide to carry out the railroad strike, according to B. M. Jewell, head of the ship crafts. The committee has the power to authorize a strike, or if it does not care to take full responsibility, to call a meeting of the 1900 general chairmen.

ANSON B. Edgerly, fiscal agent here of the Bank of North Dakota, "denies inferences in dispatches from the Northwest on the eve of the political fight that the State finances are anything but sound, or that there has been any juggling of them."

"The bank's statement shows a balance of \$11,000 for two years," he said, "and it has been going for two years on a net capital of \$2,000,000, operating under the laws of the State, approved by the United States Supreme Court. The \$11,000 has been a net profit."

"The State's resources cannot be belittled. Aside from a vast acreage of agricultural land, North Dakota has 600,000,000 tons of coal deposits, owned by the State. More than \$4,000,000 worth of Bank of North Dakota bonds have been sold in the United States, testifying the soundness of the institution."

COMMERCIAL - SAVINGS

THE bigger a Bank gets the more it can do for its Customers. Size brings advantages. It brings some disadvantages, too.

With a big Institution service to Customers often becomes "automatic." There may be a machine-like precision, but who wants to be a "machine," or to deal with one? Customers become so many "numbers"; employees mere cogs in the wheel.

We overcome the disadvantages of bigness by our widespread "branch" system: no over-crowding anywhere, time to become acquainted with Customers, to get some friendship into business, and deliver human service: opportunity also for employees to really learn the banking business, to grow in value to themselves, to our Customers and to us.

Sound idea? Yes, but it is working out in practice. One of the main reasons why California Bank grows.

SPORTS MOTORING FILM LAND & DRAMA

Who Said There Was Any Scarcity of Ducks This Year?

Bill Wheeler and His Crowd Demonstrate What Can be Done When a Real Bunch of Experts Sallies Forth. Here he has completely surrounded by six limits of birds which he and his party succeeded in taking at Baldwin Lake recently. The hunters in the party, besides Wheeler, were Dan Reed, Walt Warman, Ed Noble, Barney Barnett and Dr. A. G. Senessey.

**DUCKS ARE BECOMING NUMEROUS.** Sportsmen Report Excellent Shooting All Over Southern California.

Although ducks have been scarce in Southern California so far this season, the sport of quack shooting is beginning to pick up, and hunters are bagging limits without much trouble. Sportsmen are eagerly awaiting the arrival of the fall season, when the ducks are expected to be in the country in large numbers.

Harry Heilman Wins Ball Game With Home Run. SAN FRANCISCO, Oct. 18.—Harry Heilman showed today why he is called the hardest hitting right-handed batsman in the game. He came up in the third inning with two runners on and Alton pitching. He got hold of one right and sent it on a line over Gate Cohn's sign and out of the park. That poked broke up the ball game, for when Harry landed, the teams were tied two-all. Harry's smash scored three runs and Tony Paeth was never in danger afterward. Heilman drove that ball to right center and it traveled like a shot out of a cannon. The Mission won, 3 to 1, and in the games they have played here they have looked better than the San Francisco club.

**GEORGE MARKS TO BOX "KID" GEORGE.** Little by little Matchmaker Frank Crowley is signing up bouts for the coming Friday night's show for the Hollywood American Legion. Two runners on and Alton pitching. He got hold of one right and sent it on a line over Gate Cohn's sign and out of the park. That poked broke up the ball game, for when Harry landed, the teams were tied two-all. Harry's smash scored three runs and Tony Paeth was never in danger afterward. Heilman drove that ball to right center and it traveled like a shot out of a cannon. The Mission won, 3 to 1, and in the games they have played here they have looked better than the San Francisco club.

**CRESCENT A.C. AFTER DAVIS CUP MATCHES.** George Murphy, younger brother of Thomas, is next in line for the Crescent A. C. of New York will bid for the Davis cup tennis matches next year. A new field of modern clay courts will be laid out on the Lacrosse field, and the new Lacrosse field will be located in another part of the grounds. Twenty grass courts will also be put in shape for matches.

**STRANGER WINS.** COLUMBIA (O.J.) Oct. 18.—Ed (Strangler) Lewis, former heavyweight wrestling champion, defeated George Kotsanos of Columbia in a wrestling match here last night. Lewis threw Kotsanos in one hour and thirty-nine minutes, using a headlock.

**WILLIAMS WANTS TO BOSS SEALS.** SAN FRANCISCO, Oct. 18.—Nick Williams, the blond, who used to play with the University of California and the Seals in the long ago, is now up in the wilds of Nacmish, Alberta, Can., and he wants to come back to God's Country. Nick can't see why the owners of the Seals should go East for a manager while he has such splendid health, and he would like to have charge of the local club next season.

**WINTER LEAGUE.** Los Angeles, San Francisco, and San Diego are the only teams in the Pacific Coast Winter League. The league was organized last year and has been successful in attracting players from the major leagues.

**NEW PACIFIC COAST PRICES CLEVELAND SIX \$1340** Including Bosch Magneto and Cord Tires War Tax Extra

This is the lowest price this superline six has ever sold for. That the Cleveland Six would ever reach this new low price was beyond our fondest hopes. The quality and specifications of the Cleveland Six are comparable only to those of cars priced \$500 to \$700 higher.

**FORESTERS TO HAVE A VARIED PROGRAM.** Members of the Order of Foresters will be entertained in the clubrooms, 245 South Hill street, with a smoker and an athletic program tomorrow night.

**WEAVER SUES COMISKEY.** CHICAGO, Oct. 18.—George D. (Buck) Weaver, former White Sox player, today filed a writ of attachment in the Municipal Court to collect \$20,000 salary alleged due him on his contract with the club.

**HOREMANS IN RECORD RUN.** NEW YORK, Oct. 18.—Edouard Horemans, billiard champion of Europe, made a run of 400 from spot today, in the third block of a 2400-point game of 15-ball, with Koji Yamada, Japanese champion. The Belgian's opponent never got a chance at the cue. This was said to be the first time in the history of professional playing, such a run has been made.

**LOCAL EXPERT DISSECTS AND EXPLAINS NEW BOXING RULES OF THE NEW YORK COMMISSION.** BY DE WITT VAN COTT. The New York boxing commission has taken a long stride for the betterment of boxing. Not only in the formation, but also in the enforcement of rules, have these things been noticeable. Several attempts have been made during the past twenty years to remake or remodel the Marquis of Queensberry Rules, each attempt being for what was thought the betterment of boxing. Each was a distinct failure. The original set formed by the Marquis of Queensberry and Arthur Chambers, about fifty years ago, has never been equalled. Those rules thoroughly covered every point with remarkable simplicity. TRIES AGAIN. The New York commission has again tried to revise, to a certain extent, the original set and has come nearer to the point than any other person or persons. A few vital points have been overlooked that sooner or later no doubt will be changed by the commission. One of the first mistakes is the addition of extra weight divisions. They have thirteen in all, while the original set called for but six. The addition of one, making seven, would probably cover the weight question sufficiently. The weight question has been a thorn in the boxing game for years. But the blame for this can be

Although ducks have been scarce in Southern California so far this season, the sport of quack shooting is beginning to pick up, and hunters are bagging limits without much trouble. Sportsmen are eagerly awaiting the arrival of the fall season, when the ducks are expected to be in the country in large numbers.

**Harry Heilman Wins Ball Game With Home Run.** SAN FRANCISCO, Oct. 18.—Harry Heilman showed today why he is called the hardest hitting right-handed batsman in the game. He came up in the third inning with two runners on and Alton pitching. He got hold of one right and sent it on a line over Gate Cohn's sign and out of the park. That poked broke up the ball game, for when Harry landed, the teams were tied two-all. Harry's smash scored three runs and Tony Paeth was never in danger afterward. Heilman drove that ball to right center and it traveled like a shot out of a cannon. The Mission won, 3 to 1, and in the games they have played here they have looked better than the San Francisco club.

**GEORGE MARKS TO BOX "KID" GEORGE.** Little by little Matchmaker Frank Crowley is signing up bouts for the coming Friday night's show for the Hollywood American Legion. Two runners on and Alton pitching. He got hold of one right and sent it on a line over Gate Cohn's sign and out of the park. That poked broke up the ball game, for when Harry landed, the teams were tied two-all. Harry's smash scored three runs and Tony Paeth was never in danger afterward. Heilman drove that ball to right center and it traveled like a shot out of a cannon. The Mission won, 3 to 1, and in the games they have played here they have looked better than the San Francisco club.

**CRESCENT A.C. AFTER DAVIS CUP MATCHES.** George Murphy, younger brother of Thomas, is next in line for the Crescent A. C. of New York will bid for the Davis cup tennis matches next year. A new field of modern clay courts will be laid out on the Lacrosse field, and the new Lacrosse field will be located in another part of the grounds. Twenty grass courts will also be put in shape for matches.

**STRANGER WINS.** COLUMBIA (O.J.) Oct. 18.—Ed (Strangler) Lewis, former heavyweight wrestling champion, defeated George Kotsanos of Columbia in a wrestling match here last night. Lewis threw Kotsanos in one hour and thirty-nine minutes, using a headlock.

**WILLIAMS WANTS TO BOSS SEALS.** SAN FRANCISCO, Oct. 18.—Nick Williams, the blond, who used to play with the University of California and the Seals in the long ago, is now up in the wilds of Nacmish, Alberta, Can., and he wants to come back to God's Country. Nick can't see why the owners of the Seals should go East for a manager while he has such splendid health, and he would like to have charge of the local club next season.

**WINTER LEAGUE.** Los Angeles, San Francisco, and San Diego are the only teams in the Pacific Coast Winter League. The league was organized last year and has been successful in attracting players from the major leagues.

### Wild Scramble in Prep Pigskin Circles Will Be Renewed Friday Afternoon.

#### BEES FOR CRAVATH NEXT YEAR.

(BY A. P. NIGHT WIRE.)

SALT LAKE CITY, Oct. 18.—At a meeting today of the board of directors of the Salt Lake club of the Pacific Coast League, President Lane was authorized to enter into negotiations with Clifford (Garry) Cravath with a view to his engagement as manager for the 1922 club.

\*\*\*\*\*

A crack at the Olympic Club in San Francisco on the following day. The Multnomah boys will go to Berkeley to cheer the varsity athletes, but it is unlikely that the Eugene eleven will be able to play the Sunday game, as it would mean missing an extra day at their studies.

FAMILY STUFF.

It will be a real family party on the way down, as the Multnomah team includes a number of former Oregon stars. Bill Steers, the Jacobberger brothers and George Holdrege. When Multnomah held the Oregon Aggies to a tie it proved that it had one of the best teams in the Northwest. George Philbrick, its coach, is far from content of a victory, however, but he has a plan to rub the Olympics gave California. Multnomah has been putting in some real practice and will be expected to depend altogether on individual work, even though the club has, besides Steers, such luminaries as Faulk of Washington, Pelouse from Stanford and Clipper Smith from Notre Dame.

It is generally conceded here that Oregon has a hopeless task in trying to defeat Andy Smith's wonder team. The best that is looked for is for the Eugene men to keep the score within reasonable limits. Huntington is working hard, but he hasn't a championship eleven now and it is doubtful if he can develop one this year.

SHAKES THEM UP.

A shake-up has taken place on the Oregon team within the past week. In the first place Pink Callison, who recently arrived from San Francisco, is now at center. For the past two seasons Callison has played with the Olympic Club and was in the October 1 game against California. He adds real strength to the Oregon line. Huntington has made several other changes with the idea of speeding up his eleven. Read, F. Shields and McKewen have been shifted off the first team and replaced by Brown, Clerin and Strachan. This puts thirty pounds of weight off the line, but gains speed. Brown and Clerin are at guard and Strachan at right tackle. Diggins has been shifted to right end, replacing Morritt.

The Oregon Aggies have also done some important strengthening since the game with Multnomah. Of course, Capt. Powell and Halback Summers were both out of that game and will be back for the important college games, but there have been other changes as well. Most of Multnomah's gains were made through the right side of the line. This would look rather bad for the

### Deadlock in City League.

Manual and L. A. High Tied for Pigskin Leadership.

Pasadena Looms as Dangerous Contender for Title.

Lincoln and Polytechnic Are in the Rear Rank.

BY CHARLES WEST.

\*\*\*\*\*

CITY LEAGUE STANDINGS.

Team	Won	Lost	P.
Manual Arts	1	0	1.000
Los Angeles	1	0	1.000
Pasadena	1	1	.500
Hollywood	1	1	.500
Jefferson	1	1	.500
Lincoln	0	1	.000
Polytechnic	0	1	.000

\*\*\*\*\*

Now that the dust of the first few pigskin brawls in the prep ranks has cleared away, the dopesters are getting gleefully into action with their statistics. Winning games on paper has been a popular diversion among football fans ever since the sport started, but ever and anon the most logical prophecies are dumped into the ash can, and the "easy winner" is whalloped unmercifully.

This season has been no exception to the rule. Jefferson started things by jumping on Hollywood with both feet, when it was generally understood that the Footchillers should come out on top in the argument. Last Friday Fred Johnson's partisans decided to do a little dope spilling themselves, and came through with a 6-to-3 victory over Lincoln. Last year's champs, have yet to win a game.

TOP OF LIST.

This dope-demoralizing process of elimination has proceeded to a point where Manual Arts and L. A. High top the list undefeated, and Pasadena, Hollywood, and Jefferson should come out on top in the argument. Last Friday Fred Johnson's partisans decided to do a little dope spilling themselves, and came through with a 6-to-3 victory over Lincoln. Last year's champs, have yet to win a game.

\*\*\*\*\*

Jefferson smeared Hollywood, and Hollywood trounced Lincoln. Pasadena's overwhelming victory over Poly last week gives the Millionaires a decided edge on the dope in their farcas with Hollywood Friday. Hollywood and Pasadena have not encountered the same teams so far this season, which makes it a little harder to pick a winner. However, Fred Johnson's eleven seems to be composed of a string of in-and-outers, who may and may not be dangerous while Griffith's Crown City squad looks like a high powered machine, possibly of championship caliber.

Sid Foster's collection of youngsters, known to fame as the Manual Arts football team, will probably run riot over Jefferson Friday. Tipton's men put up a Mediocre brand of football against L. A. last week, while in their only appearance of the season the Purple and Gray, whipped Pasadena's strong eleven with ease and dispatch.

While Manual and L. A. High undoubtedly have the best chance for the title, Pasadena must be considered as a dangerous squad. If the Pasadenaans improve as much this week as they did last they could reverse their score with the Tollers without much effort, and their game with L. A. on October 23 will be a big factor in determining which direction the championship will take.

\*\*\*\*\*

### RIVALS STEAL TIGER THUNDER.

(Continued from First Page)

a triple to right center, counting both men. Highest ground-ball, a single as Vernon veered into the sixth and went to third when Slater smashed a double off rare make a beauty. Smith popped to Hornaby. Knight drove to Gould, who tossed to Jack Adams, tumbling Wolff back at the plate. Adams then ran Wolff back to third, where Slater was by this time standing. When Wolff returned to reclaim the bag, Slater retreated to second, and Adams threw low to Brubaker.

Brubaker made a nice stop of the ball, but before he could get into action with it, Wolff was across the unguarded plate and Slater was roosting on third for the second time. Knight, who had gum-shoed down to second unobserved, was nipped at third as Schneider's grounder to Brubaker, Slater slipping across the plate. It looked like a doubtful decision at third, and umpire McGraw was seen to blush profusely when Jack called him hard named.

Schneider stole second, and again Mr. McGraw blushed unanimously. Anyway, he was now square with everybody if two wrongs make a right. Mitze walked. Sawyer went in as a pinch-hitter for Kingston, and came out a hit-pincher. This filled the bases, and also caused a holler, it being claimed Carl stepped into a soft one. Pitchers should not throw anything softer than a brick.

Dee Walsh, batting for Jones, was allowed one strike and one remark. The remark, which was purely extemporaneous, was tossed at Bill Phyle after he had called the strike. Bill then tossed Dee out of the game, and Truck Hannah used up the two remaining strikes. Thus parts of two batters whiffed. That is, Dee and Truck together compiled one whiff. In other words, Gould fanned part of one fractious guy and the fractional part of another.

Ramp Lewis was good for three rounds, but got a nice winter warming in the tenth. As heretofore related. The score:

### GARNSEY'S TROUT POOL OPEN TO ALL.

Contrary to popular belief, Leigh Garnsey's rainbow trout farm on Mill Creek road above Redlands has not been closed to the public. There was some sentiment for starting a private club there, but the idea has been dropped, says Fred Thatcher. The pool has been culled of small trout, and nothing smaller than six or seven inches can be caught.

### JAPANESE TENNIS STAR EN ROUTE HOME.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Oct. 18.—Zensho Shimidzu of the Japanese Davis cup tennis team sailed for Japan yesterday aboard the Tenyo Maru. His team-mate, Ichihya Kumagae, will remain for a time in the United States.

Shimidzu, just before his departure, spoke appreciatively of the spirit of sportsmanship he said he had found among American tennis players.

## Comparison is what decides your purchase

The Miller Rubber Company has never aimed merely to build a tire that is "just as good as the others."

From the start the Miller policy has been to build a better tire—a tire that always excels its rivals under like conditions—a tire that would gain your preference solely on the basis of comparison.

Comparisons are continually being made by the Miller Rubber Company through exhaustive factory tests.

And comparisons are daily being made by the public. For instance, one large California dealer bought 250 Miller geared-to-the-road tires to test among his customers. Each was sold on a comparative basis and placed opposite a rival tire. Not one Miller was returned. And in most cases Millers outran the others 25 to 50 per cent.

As more and more people actually compare Miller tires with rival tires Miller business grows.

When we built the first Miller tires several years ago we were thirty-second in size. Today we are among the first.

Comparison resulting in favor of Millers has been solely responsible for this growth.

Compare Miller tires yourself with any others you are now using and you will buy Millers regularly.

## These Prices Too Low

TEMPLAR'S present prices---open cars \$1985, closed \$2785---are the lowest in Templar's history. Today you can buy Templar for \$900 to \$1000 less than last June.

But we cannot promise that these low prices will continue. In fact, we expect conditions in the industry to bring a price change upward toward the true value of the car.

If you like a car that is light, well-balanced, a greyhound for speed, a car so easy-riding that ordinary rough roads need not slow you up, a car that keeps out of repair shops, now is the time to buy Templar. May we take you for a try-out trip? Call us—now!

## Do This

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

Notice the refreshing effect which follows every use. The mouth is left in alkaline condition.

You will know then what this new way means to you and yours.

## Enjoy These Effects

for ten days—See how your teeth look then

This is to urge that you make a test which has brought delights to millions.

Brush your teeth in a new way—use a new-day dentifrice. Modern authorities advise it. So do leading dentists everywhere.

Watch the results for ten days. Note the benefits you see and feel. Then decide if you wish to continue.

### Five new desired effects

Pepsodent with every use brings five desired effects. All are beneficial, all are delightful. Together they mean a new era in teeth cleaning.

They are based on modern research. Authorities now deem them essential.

Bring them to your own teeth. Learn the reasons for them, then judge them for yourself.

One effect is to attack the film—the coat that dims the tooth luster.

Another leaves teeth highly polished, so film-coats less easily adhere.

The salivary flow is instantly increased. That is Nature's great tooth-protecting agent.

The starch digestant in saliva is multiplied at once. That is there to digest starch deposits. Otherwise they may cling to teeth, get between the teeth, ferment and form acids.

The alkalinity of the saliva is multiplied. That is to neutralize the acids which cause tooth decay.

All these results come from every application. Pepsodent brings whiter teeth and cleaner teeth. It creates an alkaline condition in the mouth. It combats the film. It gives to Nature's tooth-protecting forces a multiplied efficiency.

### Based on years of research

High dental authorities have for years studied the cause of tooth troubles.

Those troubles have been constantly increasing. Despite the tooth brush, very few escape them. Some have become alarming in extent.

Pepsodent combines the best solutions which have been discovered. It brings five important effects which old methods do not bring.

You can see these effects and feel them. The benefits are very soon apparent. The scientific reasons will make them clear to you.

Send for the ten-day test we offer, and let this new, efficient method prove itself to you.

## You Must Fight Film

to keep teeth white or clean or safe

The most vital effect is on film.

Film is that viscous coat you feel. It is ever-present, ever-forming. It clings to teeth, gets between the teeth and stays.

Old-time tooth pastes do not effectively combat it. The tooth brush has left much of it intact, to night and day threaten damage to the teeth.

Film is the teeth's great enemy. It causes most tooth troubles. So Pepsodent's effect on film is of premier importance.

### Why your teeth discolor

Your teeth are now film-coated more or less, unless a dentist has just cleaned them.

Film absorbs stains, making the teeth look dingy. It is film-coats that discolor, not the teeth. Film-clouded teeth don't glisten.

Film holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. It breeds millions of germs of many kinds. They, with tartar, are the chief cause of pyorrhea.

So your teeth are unclean and unsafe, however well you brush them, if your brushing leaves that film.

Your dentist, perhaps, has shown you the film where you did not suspect it.

He coats the teeth with an iodine solution which brings the film out clear. Then he removes it.

The great problem has been to keep it removed. To combat it daily in the home. That is a problem which dental science has been seeking to solve for years.

### Now two effective methods

In late years, two effective methods have been found. Able authorities have amply proved them. Now leading dentists, half the world over, are advising their daily use.

A new-day tooth paste has been created, complying with modern requirements. Those two film-combating methods are embodied in it.

That is the tooth paste called Pepsodent. Millions of people now employ it, largely by dental advice. New to every home we make this offer of a ten-day test, so all may quickly realize the benefits it brings.

PAT. OFF.  
**Pepsodent**  
REG. U.S.

The New-Day Dentifrice

A scientific film combatant, whose every application brings five desired effects. Approved by highest authorities, and now advised by leading dentists everywhere. All druggists supply the large tubes.

## No Cost

We send a 10-Day Tube of Pepsodent to every home that asks. You are welcome to it.

A book comes with it to explain each new effect.

That test will be a revelation to you. It will bring a new conception of what clean teeth mean.

The results will delight you, and may lead to life-long benefits.

Send the coupon and see.

## Children Benefit Most

Children need Pepsodent even more than adults. Young teeth seem most subject to these film attacks. Very few children reach the age of 15 without some film-caused trouble.

Dentists advise that Pepsodent be used from the time the first tooth appears.

Remember your own experience—the teeth ruined by decay. Many diseases of later life are traced to those old tooth troubles.

Pepsodent combats the enemies of teeth in new and effective ways. It also gives Nature's protective forces multiplied effect. And the great object is to reduce these troubles with the coming generation.

Every mother who makes this test will want her children to use Pepsodent.

Now Used by Millions  
half the world over

Some forty races now use Pepsodent. The facts about it are told in many tongues. Dentists half the world over are advising it to people. A high British authority was among the first to discover the basic principles. So Pepsodent is particularly popular in England and her colonies.

In America, millions of careful people have come to employ it. And millions more will do so when they make this test.

## Show Pearly Teeth when you smile

It is film that makes teeth dingy. Remove that film and the natural luster shows.

Film is the basis of tartar. And countless teeth brushed daily have film-coats and tartar on them.

Pepsodent means prettier teeth—teeth that glisten as they should, teeth you'll wish to show. Women who once find this out will always combat film.

Watch how teeth whiten in this ten-day test. Note how every use removes the new and viscous film.

## Business; Financial; Markets; Investments.

### DAILY TRADE TALK.

**Business Survey Shows Silver Lining; Investment Situation; No Food Shortage for Los Angeles.**

**BY CHAPMAN HALL.**

Advance copies of the Financial and Business Summary issued monthly by the Citizens' National Bank indicate that questionnaires returned from fifty important centers of the United States show that seven of them call wholesale trade good, forty say it is fair, and three poor, the retail trade none class it as good, but forty-two say that it is fair and eight name it quiet. Comparing this summary with the one of July 1, an improvement is registered. At that time wholesale trade was called good by one, fair by twenty-two, and quiet by seventeen.

The forecaster finds that we have entered a new business cycle marked by improvement in agriculture districts pointing towards a higher average price for agricultural products is found in the registered, prospective industrial activity, and a clarifying and development of the manufacturing situation.

In the light of these findings, and remembering that the physical volume of manufacturing is at low ebb in most parts of the country, we may expect industrial activity to respond to the stimulus of better trade factors. A usually reliable barometer is found in the improvement of pig iron production, the stiffening of its price, and a lowering of the discount rate of the Federal Reserve System. This combination is usually indicative of a new business expansion.

**INVESTMENT SITUATION.**

With the exception of Liberty Bonds, which have developed marked strength, the investment market has remained practically stationary for the past month. Whereas the lowering of interest rates exerted a favorable influence on prices, there were other elements active enough to offset this advantage for the time being. Foremost among these other influences was the fact that there was a very great increase in new domestic financing during the month, as well as important foreign loan flotations in this country, which served to absorb a large volume of capital. The investment market will probably remain for some time in a condition sensitive to many factors, and consequently subject to minor fluctuations. The buyer should not place undue weight on these movements, and inasmuch as they are absolutely unpredictable, should afford to hesitate when the opportunity arises, to purchase particularly attractive securities.

A study of the statements of larger banking and financial institutions, and of the nature of new financing at present, reveals the fact that we are past the point of greatest stress in the financing of industry. While there are still too many establishments throughout the country hard-pressed for money, the great majority of industries are now in a position to carry on without long-term loans, or at least to bargain for advantageous terms. We are definitely passing out of the period of security financing, and into the next phase of the cycle, in which financing is for the purpose of actual industrial advance and construction.

Similarly, the investor's psychology has changed to the extent that he now seeks to secure long-term securities to build up his income over a definite future period, rather than being eager to sell himself of a high yield for the immediate future. From now on there will be a tendency to retire bonds bearing high interest rates, and to refund them on a less expensive basis, as the opportunity arises. It is still possible for the investor to shift such holdings into longer-term obligations to his advantage. The past several months have proven beyond a doubt the underlying strength of the market, and the certainty of a material advance in the period into which we are just entering. It is evident, however, that industrialists will lag in the general advance for some time to come.

**NO FOOD SHORTAGE.**

Don't hoard. Pay no attention to panicky propaganda. Keep cool. Southern California is not going to go to bed hungry no matter what the strike develops.

The alarmist is abroad in the land, reminding of the war days. He predicts dire calamity. He is a false prophet. The very worst that can happen to residents of this part of the country is a possible reduction in the volume of meat consumption, and there is a considerable

## RAILS RECOVER LOSSES.

**Wall Street's Apprehension Over Strike Disappears; Wheat and Cotton Undergo Declines.**

**BY FRANKLIN K. SPRAGUE.**  
**[EXCLUSIVE DISPATCH.]**

**NEW YORK, Oct. 12.**—Practically all of Monday's decline in the railway stocks was canceled in today's recovery; some of the shares went above last week's final prices. This was pretty plain evidence that apprehension over the threatened strike was disappearing. The day's news, in fact, indicated unmistakably that the brotherhood leaders are on the defensive, and know it; an attitude which is traditionally fatal to a successful labor demonstration. The statement of their case by the chief of the locomotive brotherhood is equally apologetic and indiscreet, admitting that the strike was ordered, not because of what had occurred, but because of what might occur, and declaring that the strike leaders will be satisfied if the movement takes over the roads.

This suggestion coming from the strikers is transparent, especially as it comes before they have made good their threat to tie up the railroads. The unions recall that they usually got from Washington what they wanted in the way of wages during the period of government operation. That is, they got what they wanted without the unpleasant status. The wish is doubtless father to the thought.

The signatures which were attached to last Saturday's strike order, are those which were attached to the protest against the new Railroad Act, in February, 1920, and the truculent declaration of August, 1919, that the brotherhood "were in no mood to brook the return of the lines to their former control." But that is past history.

Today's news from Washington indicated that the administration and the Railway Labor Board are expected to bring the union leaders back into touch with the realities. The day's advance, in railway shares and most of the industrials, occurred on lighter trading than the day before. Prices as a rule, ended at, or near, the highest.

Outside of the stock exchange, the decline in wheat was the noteworthy event. Contracts for December and May delivery sold 4-1/4 to 5 cents per bushel below Monday, reaching 12 cents below those of a month ago, and the lowest quoted amount takes over the roads.

Foreign exchange rates reacted somewhat sharply from Monday's violent movements. Sterling declined at one time today to \$2.39 1/4, as against the previous day's \$2.34, while German marks did not reach Monday's low level and were quoted at 61 1/2 of a cent, as compared with 62 1/4 of a cent. The dollar was in either case that indicated anything more than speculative realizing or covering.

## BUSINESS NEWS.

**Exports of the United States to Mexico continue to show remarkable increases despite the reduction in our imports from that country. The value of our exports to Mexico, says the Trade Record of the National City Bank of New York, shows an increase of 53 per cent in the eight months of 1921, for which we now have figures, as compared with the corresponding months of last year, while the value of the imports from Mexico shows a slight increase over August of last year, although the value of the imports from Mexico for the month is less than one-third that of August of last year in total value of our sales to Mexico does not represent the actual increases in quantities of merchandise sent her, since in most cases the prices per unit of quantity are so much less than those of last year that the quantity figures show even larger gains than those of total values. In cotton cloths alone, the value of the exports to Mexico in August, 1921, having been \$7,350,000 against \$3,419,000 in the same months of last year, while the quantity is 39,256,000 yards against 5,744,000 in the corresponding months of last year. In cotton hosiery the quantity is nearly double that of last year while in raw cotton the number of pounds sent to Mexico is 12,761,000 against 591,000 in the same months of last year. In quantity is very large. Bituminous coal exported to Mexico in the eight months of 1921 was 132,000 tons against 99,000 in the same months of last year; commercial automobiles, 4753 against 1955; freight cars, 789 against 175; locomotives, 220 against 44; flour, 269,000 barrels against 158,000; corn, 4,485,000 bushels against 4,200,000; wheat, 5,674,000 pounds against 2,906,000; barbed wire, 4,819,000 pounds against 2,632,000; pipes and iron and steel, 260,000,000 pounds against 137,000,000; lead, 25,000,000 pounds against 12,500,000; tin cans, 5,750,000 pounds against 3,200,000; printing paper, 2,800,000 pounds against 1,203,000; refined sugar, 15,258,000 pounds against 1,400,000; and fuel oil, 20,675,000 gallons against 41,813,000 in the corresponding months of 1920.**

The total value of all exports to Mexico in the eight months ending with August, 1921, is officially stated at \$171,449,000 against \$111,556,000 in the same months of 1920, and the imports from Mexico, \$40,318,000 against \$121,117,000 in the corresponding months of last year. The fall off in imports occurs chiefly in such goods as india rubber, hides and skins, copper, lead, cotton and coffee, and in due to a very considerable degree to lower prices. The increase

**Market and Taylor Building Company**

**First Mortgage 10-Year 8% Sinking Fund Gold Bonds**

**NON-CALLABLE**

Principal and interest unconditionally guaranteed by Loew's, Incorporated

### THE SECURITY

This issue is a closed first mortgage on an eight-story Class "A" fireproof office, store and theater building now nearing completion, which is being constructed at an estimated cost of \$1,100,000, on property held under a 50-year lease at the northeast corner of Market and Taylor Streets in the City of San Francisco. The building fronts 182 1/2 feet on Market Street and 187 1/2 feet on Taylor Street. This is one of the most valuable downtown business locations in San Francisco, insuring stability of income.

Sufficient funds are on hand to complete the building, according to the estimates of Macdonald & Kahn, managers of construction. As a further safeguard, Loew's, Incorporated (which controls and operates over 60 theaters and has net tangible assets, not including goodwill, of nearly \$200,000,000) has executed, as surety, a bond in the sum of \$300,000 guaranteeing completion free from liens. Loew's, Incorporated, also unconditionally guarantees payment of ground rent while any of these bonds are outstanding, and the payment of the rental for the theater portion of the building, which will be occupied by Loew's San Francisco State Theater Company under a lease extending beyond the maturity of the bonds at an annual rental of \$200,000.

### THE ISSUE

**Dated September 1, 1921** **Due September 1, 1931**

Total authorized \$400,000 (closed mortgage). Coupon bonds of \$100, \$50 and \$25 denominations. Registrable as to principal. Interest payable in San Francisco at Anglo-California Trust Company and in Los Angeles at Los Angeles Trust and Savings Bank. Anglo-California Trust Company, San Francisco, Trustee.

A monthly sinking fund, commencing March 1, 1922, will be provided sufficient to purchase the entire issue prior to maturity, if obtainable, at not below 105 and interest.

All legal proceedings incident to the creation and issuance of these bonds will be approved by Messrs. Goodfellow, Ellis, Moore & O'Neil, the bankers and Mr. A. S. Newburgh for the Company.

### THE EARNINGS

Estimated annual earnings are as based upon leases already arranged for portions of the building, and applications on file:

**INCOME**

Theater lease	\$200,000
Ground floor stores and basement	84,000
Offices (net after provision for upkeep, vacancies, etc.)	40,800
<b>Total Annual Income</b>	<b>\$324,800</b>

**EXPENSE**

Ground rent	\$ 87,600
Taxes and insurance	30,000
<b>Available for bonds</b>	<b>\$237,200</b>
Greatest annual charge, bond interest	\$ 32,000
Annual charge, sinking fund	60,000
<b>Surplus per annum</b>	<b>\$145,200</b>

Based on these estimated annual earnings, the net income available for bond charges is over six times interest charges and more than five and one-fourth times the greatest annual interest and sinking fund charge combined.

## Supreme Consideration

Look for the guiding principle in the con-  
duct of a first class investment house and  
you will find it summarized in the word:  
**Safety**

Safety controls the selection of the securi-  
ties to be handled. It influences the choice  
of the personnel. It determines the mi-  
nute care with which each transaction shall  
be executed. It involves the accumula-  
tion of a vast amount of statistical infor-  
mation that must be constantly consulted  
and applied.

From the very inception of a high grade  
house until its maturity SAFETY is the  
dominant consideration. And we urge  
that it be quite as vital with you in judging  
of fitness to handle your investments.

## NEW YORK STOCK EXCHANGE.

(BY A. P. NIGHT WIRE.)  
NEW YORK, Oct. 18.—The finan-  
cial community was disposed to take  
a more hopeful view of the rail-  
road strike situation today. This  
was reflected in the better tone of  
the stock market, which showed lit-  
tle of yesterday's pressure.

Occasional liquidation was con-  
fined to a few selected issues. Among  
food and allied specialties. Ameri-  
can Sugar common and preferred  
suffered greatest depression, the lat-  
ter's decline of 5 points pointing to  
dividend reduction or omission.

Rails recovered most of yesterday's  
setback, and shares identified with  
transportation improved in like  
degree. Exceptions were furnished  
by several equipments, notably Pull-  
man, which made a net loss of 4 1/2  
points.

Others were strengthened by short-  
covering. Royal Dutch rallying on  
Total sales, par value, \$16,750,000.

## NEW YORK BOND LIST.

NEW DEPUTIES  
NOW ON DUTY.Oil Strike Drags Its Way Into  
Sixth Week.Misunderstanding is Cause of  
Bank Run.Idle Men Ask for Help From  
Other Unions.

(BY A. P. NIGHT WIRE.)  
Bakersfield, Oct. 18.—The strike of oil workers in the Kern county and Coalinga fields dragged its way to the middle of its sixth week today without marked change. Walter J. Yarrow, adviser of the unions, was still absent from Bakersfield on an undisclosed mission. Fifteen deputy sheriffs, authorized yesterday, were named today and assigned to duty in the various fields and towns of the strike zone. Sheriff Nevill said he expected them to put a stop to the purported custom of kidnapping non-striking men from their quarters and there subjecting them to questioning and demanding that they quit work.

A slight surge in banking circles was caused here today when a number of the strikers withdrew their funds from one of the local banks. They were caused to do so by a rumor that suits for damages to the fields would be filed against them by operators, and also, according to a statement from the bank, by the attitude of one of the strikers who was said to have told the strikers that their cause was lost and that their money was probably lost with it. The bank promptly ran down and disproved the rumors of suits, and disclaimed the clerk's statement, and the withdrawals subsided after a couple of hours.

There were no reports of disorders today. The law and order committee continued to maintain its road guard posts, although it was estimated yesterday that there would be withdrawn when the deputy sheriffs started work.

SAN FRANCISCO, Oct. 18.—The executive committee of the Oil Producers Association of California recommended today to its member companies outside of San Francisco that the process of individual selection be used by all member companies in the employment of men.

The committee also recommends that companies have in mind that the superintendent, foreman, or other supervisory officers and the local men are entitled to be assured of harmonious relations with their returned, and that employment of new men must be with that paramount consideration in view, it was announced.

The State Federation of Labor, it was announced today, has sent an appeal for financial support for the striking oil workers to all councils and local unions in California.

SEE NO DANGER  
OF OIL FAMINE.Big Companies Declare Country  
Can be Supplied Despite  
Railroad Strike.(BY A. P. NIGHT WIRE.)  
NEW YORK, Oct. 18.—Representatives of the Standard Oil Company in New York and other large oil producers and refiners expressed the belief today that there are ample supplies of gasoline to meet any possible lack of railroad freight movements in the event of a strike.

The Atlantic seaboard has ample gasoline, it was said, and the Middle West would obtain its supplies from the Chicago district. The Pacific Coast, it was said, could draw on the California district for almost unlimited supplies, and the South and Southwest would receive gasoline from Texas and Oklahoma fields.

\*\*\*\*\*  
fornia affiliated with the federal union, the workers are making a splendid struggle for fundamental justice, involving the right of collective bargaining and the principle of conciliation.

QUESTION LEGALITY  
OF UNIVERSITY FEE.STATE'S ATTORNEY-GENERAL  
ASKED TO RULE ON ADDITIONAL  
CHARGE.

(BY A. P. NIGHT WIRE.)  
SACRAMENTO, Oct. 18.—An opinion as to the legality of the right of the authorities of the University of California to impose and collect an additional fee of \$25 per semester designated as "Incidental Fee" was requested in a letter addressed to Atty.-Gen. U. A. Webb by G. B. Daniels, chairman of the State Board of Control today.

Daniels stated in his letter the fee was imposed on both resident and nonresident students in addition to the fees previously charged causing dissatisfaction among the students working their way through the university.

FATHER-SON WEEK BOOSTED.

(BY A. P. NIGHT WIRE.)

## PLAN FOR SHIP LINE TO ENGLAND

Britisher Aserts Project is Being Considered for Fruit Steamers Here.

"We have under serious consideration a proposal to put into operation a line of fast steamships completely equipped with refrigeration for conveying fruits from California to England," said Sir Archibald Williamson, M.P., of London.

Williamson is taking a "complete rest, the first in eighteen years," at the Ambassador Sir Archibald recently resigned the position of Parliamentary and Financial Secretary to the War Office.

"Such a line of steamers must be fast and it is largely a question of whether sufficient de luxe passenger business can be created between this coast and England by way of the Panama Canal to justify the undertaking," he continued.

Over it is sure that such travel is forecast for the future and we feel favorably toward the proposal.

"In this connection I am impelled to point out that your statesmen must realize that commerce is primarily a business of barter, a matter of exchange, and that a one-sided commerce can never build up foreign trade. I read in your newspapers so much about exports, exports, but if you invoke tariffs which preclude the probability of imports your trade is bound to suffer."

"All the world needs today is confidence and I hope that a new element of confidence and a spirit of reciprocity in the matter of trade will enter into your future activities and legislation. The world is ready to go ahead, better than ever before, but for the one great lack—that of confidence."

"As a matter of fact, confidence will do much to discount Germany as a cheap producer of today, for confidence is the one element which will raise the value of the German mark. When the value of the mark is raised, men who are now getting 15,000 marks a week will be loath to have their wages reduced and perhaps within two years the tables may be turned and Germany may find herself no longer a cheap producer."

Sir Archibald is a member of the firm of Balfour-Guthrie Company which is agent of the Harrison steamship lines.

## GIRL IS DROWNED.

Neelie Ramos, age 15 years, a schoolgirl, fell in the reservoir at Chatsworth and has drowned.

Monday, according to a report yesterday to Coroner Nance. The girl was a daughter of Mr. and Mrs. Ramos and had stopped with other children, when she slipped and fell into the water. Her body was taken to the morgue of W. G. Noble, San Fernando.

## ORPHANS WILL BE GUESTS.

"Times" Arranges for Children to See Circus Monday; Los Angeles Railway to Furnish Cars.

"Talk about the days of real sport," sneered Skinnay last night as the boys were getting ready for bed. "I guess there's some class to go to the circus in a special car."

"Aw, yah," snorted Freckles. "But there ain't no fun in pipe dream."

"No pipe dream about it. We're going to do it," retorted Skinnay. "Whaddya mean?" Freckles inquired, sitting up and taking notice.

"Just what I mean," Skinnay said. "We're all gonna be going to the circus Monday night."

"You're good all right," retorted Freckles. "You been eatin' mince pie again. You got Little Nemo heat a mile when it comes to dreamin'."

"You must be talkin' to Lady Bountiful," put in Freckles, as he snuggled up. "Who's goin' to put up all the money?"

"Ain't goin' to take no money," answered Skinnay. "The Times has fixed it so the orphans in town can go to the circus Monday afternoon and the Los Angeles Railway is goin' to furnish special cars to take us there and back."

"You're good all right," retorted Freckles. "You been eatin' mince pie again. You got Little Nemo heat a mile when it comes to dreamin'."

## ARMY BALLOONS IN TEST FLIGHT.

Three Huge Gas Bags Start on Long Night Contest.

Crews Instructed to Go as Far and as High as Possible.

May Drift Out Over Sea or Uninhabited Region.

Somewhere in the dark heavens over Southern California, three huge United States Army balloons, carrying ten officers from the Ross Balloon School, were skimming last night through space on instruction flights for the training of the most unusual adventure ever attempted by government balloon forces in the West.

The enormous gas bags arose from the Arcadia Field at 8 p.m. Though the test flight is not officially termed an air derby or balloon race, the members of the three crews entered the baskets and took off in a competitive spirit, each determined to outdistance his competitors, intimating that it is to be a balloon race, nevertheless.

The flights were designated as instruction flights for the training of officers in operating free balloons.

Left to right—Capt. W.D. Wheeler, 1st Lieut. J.F. Sullivan (pilot), 1st Lieut. J.F. Sullivan, and Capt. L.I. Miller, crew of balloon 35-17.

Two of the baskets carry crews of four men, including pilots. The third basket went aloft with two men, including a pilot. Each crew was sent aloft with instructions to remain in the air as long as possible, but landing must be made by 4 p.m. today.

TWO COURSES OPEN.

The problem that confronts the ten balloon officers is to make the greatest distance from the post possible, combined with the maximum altitude attainable, or to land as near the post as possible, after reaching a maximum altitude. If the balloons reach an elevation where a strong air current will carry the bags an exceedingly great distance the flights probably will be made at this altitude. The number of miles traversed will add to the contestants' score of points.

Again, if the pilots find it impossible to cover any great distance, they will gain points in their scores by remaining aloft as long as possible within the allotted time and by landing as near the starting point as possible.

Before going aloft, the three pilots were informed of the weather conditions that prevailed in the various air strata to an altitude of 15,000 feet. They were equipped with a chart showing these air conditions. This chart was prepared by the meteorological station at Ross Field by trained men. It is known as the "wind-aloft report," and is compiled each morning and afternoon at the school.

The "wind-aloft report" informed the pilots of the altitudes in feet and the direction and velocity of the wind in miles per hour for every elevation of 250 to 500 feet up to 15,000 feet. This report is compiled by triangulation with a pilot balloon, twenty-four inches in diameter, which is released, after which angles are read by an instrument known as the theodolite. By means of this report the pilots are able to choose almost any course by rising to the necessary altitude.

CREWS WELL EQUIPPED.

Realizing the balloons may carry them into uncharted air channels, possibly into uninhabited mountain regions or out to sea, the balloonists equipped themselves for all emergencies that might arise. Ample heavy clothing to protect them from the cold of high altitudes and rations for several days were carried. In addition to the scores of various recording instruments for making reports on aerial conditions at intervals.

## STOCKADE, ROCKPILE FOR HOBOS, SHERIFF'S PLAN.

"Bums" Pouring Into City at Rate of Two Hundred Daily; Traeger to Ask for More Deputies.

With information at hand that from 200 to 300 hobos are arriving in Los Angeles daily and have been for the last fifteen days, Sheriff Traeger today will ask the Board of Supervisors for emergency authority to appoint from forty to fifty junior deputies to handle a situation unusual in this district. While, it was stated, a large number of itinerants each year seek the warm climate of Southern California, never before have they come in such numbers.

The Sheriff said he had no information to support statements that these men, some of whom are I.W.W., are being encouraged to come to this city in view of the threatened strike of railroad trainmen. He had no information, either, that it is planned, as reported, to import 30,000 of such men here, to arrive in box cars prior to November 1, the date set for the strike.

PRECAUTIONARY MEASURE.

But the Sheriff intends to take precautionary measures, he stated yesterday. He said that Constable Hitchcock of Newhall reported to him that for about fifteen days from 200 to 300 hobos have been arriving on Los Angeles-bound freight trains. Under present conditions the Sheriff is unable to take all these men into custody, but today will propose a plan to the Board of Supervisors by which he hopes to discourage such an influx into this section.

Sheriff Shay of San Bernardino county is taking all such itinerants from trains that arrive there and the courts are setting them to work with a ball and chain on the county rockpile. At present Los Angeles county has no rockpile or chain gang, but Sheriff Traeger today will ask the Board of Supervisors that a stockade of some nature be established to house these men and that a rockpile be furnished for those who will not work.

NEEDS MORE MEN.

In order to meet trains coming into Los Angeles county, the Sheriff says he needs from forty to fifty more men, to be appointed temporarily as junior deputies. The overcrowded conditions of the County Jail will not permit the housing of such large numbers there, it was stated.

It was learned that some of the men arriving here by freight train have money and appear to be workers who have been attracted by the widely advertised fact that Los Angeles is the "white spot" in the United States so far as industrial and financial conditions are concerned.

It is part of the Sheriff's plan to ask that the Chamber of Commerce request that representatives from various civic organizations be named to form a committee to handle this situation and provide work for men who want it. Others, he will advise, should be held in the proposed stockade and then put to work on a rockpile.

WOULD HANDLE PROBLEM.

It was stated by the Sheriff that with emergency authority to appoint temporary deputies he could meet trains coming into the county, take hobos into custody and sift out the workers from nonworkers. In addition, he stated, such an emergency ordinance would give him a chance to handle any situation that would result in personal violence or property destruction.

The Sheriff soon will make a personal investigation, and at the same time will continue his plan to police the county thoroughly through the aid of volunteer deputies of standing.

In a requisition forwarded to all boards of supervisors in Southern California and all city councils, the Peace Officers' Association of Southern California, in a meeting at San Bernardino last Saturday, urged that rockpiles be established for men who would not work and employment be found for those who would.

## Second Venice Official Set Free by Court.

The second official of the volcano city of Venice to be tried on a charge of misconduct in office was acquitted yesterday when a jury in Judge Monroe's court returned a verdict of not guilty in the case of W. F. Crawford.

The beach town's City Engineer, the jury was out but ten minutes. As a result of an upheaval in Venetian politics, Mr. Crawford and several others were charged with misconduct in office by the jury. It was charged that there were irregularities in the handling of pay rolls in the City Engineer's department and in paying city money to contractors.

## TWO WOMEN, MAN HURT BY AUTOS.

Actor's Car Strikes Pair Who May Not Recover; Aged Woman Hit, Injured.

One man and a woman may die and another woman is in the hospital seriously injured as the result of traffic accidents last night.

The man is Floyd J. Thompson, age 26 years, of 4314 Burns avenue. He was struck by an automobile driven by Morris Finkelshtein of 2503 Pennsylvania avenue, opposite the Sisters' Hospital on Sunset Boulevard. When rushed to the Receiving Hospital by George Brogmus of 1137 Madison avenue, he was found to have received a possible skull fracture, lacerations of the face and a fracture of the right leg. According to Mr. Finkelshtein's report to the police, the aged woman stepped from the curb of Sunset Boulevard directly in front of his machine. He said he was driving at a speed of about twenty miles an hour and could not stop his car in time to avert the accident.

Earlier in the evening Susanna Kakeley, 70 years of age, of 1116 Marion avenue, was struck by an automobile driven by Morris Finkelshtein of 2503 Pennsylvania avenue, opposite the Sisters' Hospital on Sunset Boulevard. When rushed to the Receiving Hospital by George Brogmus of 1137 Madison avenue, she was found to have received a possible skull fracture, lacerations of the face and a fracture of the right leg. According to Mr. Finkelshtein's report to the police, the aged woman stepped from the curb of Sunset Boulevard directly in front of his machine. He said he was driving at a speed of about twenty miles an hour and could not stop his car in time to avert the accident.

Another woman was injured when her car was struck by a truck. The woman is Mrs. Ruth Thompson, age 29, who was walking with him also was knocked down and suffered fractures of both knees, abrasions and internal injuries. Her condition is grave. Both were treated at the Receiving Hospital.

Count the presence of the dangling wire. One theory advanced was that the wire might have been part of a boy's kite which had caught on the high line and snapped. Another was that an airship had flown low over the territory with a wire hanging from it which might have caught and broken.

KATHERINE GRIFFITH, FILM ACTRESS, DIES.

Katherine Griffith, cinema actress died Monday night at her home, 1232 Gower street, following a stroke suffered while she was acting at the Marshall Nellan studios. Mrs. Griffith leaves her husband, Harry Griffith, character man in pictures, two sons, Gordon and Graham, both child players, and a daughter, Miss Gertrude Sutherland Griffith, who is secretary to the president of Occidental College.

Mrs. Griffith was 45 years old and had spent more than half her life on the stage and in pictures. She had been appearing in pictures for nine years.

## MILLEN & BLUETT

QUALITY IN MEN'S WEAR SINCE 1883

Put off the purchase of the inevitable raincoat and extra umbrella is to court annoyance and discomfort when the next rain comes.

Better take the time today to come in and see the lightweight waterproof raincoats of both domestic and imported materials we are displaying.

An extra umbrella for the office—an all-weather cloth hat—wool socks for ankle protection—and many other wet-weather needs will suggest themselves.

ROADWAY at SIXTH

ROSE OF CASTILE TO BLOOM AGAIN

Plan to Restore Mission California Will be Put to Next Sunday's "Times"

Restoration of the California mission by popular subscription is one of the projects which the mission preservationists have taken up.

The committee is headed by Mr. J. H. Miller, who has been named as temporary Fire Chief and J. W. Merrill as Assistant Fire Chief. Mr. Bryce was chosen temporary City Recorder. These persons assumed their duties following the meeting

and will hold office until permanent appointments are made.

Sawtelle will maintain its public schools, books and teachers. County Superintendent Keppel stated yesterday a plan is afoot to petition the Board of Supervisors to annex Sawtelle to the Los Angeles district for school purposes only. Seven hundred Sawtelle residents last night unanimously adopted a resolution petitioning the County Supervisors to appoint a school board for Sawtelle until such time as a board can be chosen by regular election.

Seventy-five Westgate residents last night asked that Westgate be presented with all the Los Angeles departments which have been removed from Sawtelle.

Seventy-five Westgate residents last night asked that Westgate be presented with all the Los Angeles departments which have been removed from Sawtelle.

## URGES KILLING OF CENSORSHIP.

Business Men's Body Assails Film Ordinance.

Cites Huge Sum Invested Here in Cinema Work.

Asks Council to Defeat Plan to Stifle Industry.

"Kill the motion-picture censorship ordinance," is the advice given to the City Council by the board of directors of the Business Men's Co-Operative Association in a resolution unanimously adopted yesterday. The ordinance will come before the Council next Friday morning, at which time arguments on the question will be heard. The resolution adopted by the Business Men's Co-Operative Association follows:

Los Angeles, Cal., Oct. 17, 1931. Whereas, the City Council of Los Angeles have under consideration an ordinance providing for the appointment of a board of motion picture censors; and

Whereas, the board of directors of the Business Men's Co-Operative Association are of the opinion that such ordinance could accomplish no more than to stifle the industry through the enforcement of existing laws for the regulation of moving-picture exhibitions; and

Whereas, approximately 50,000 persons are employed in the making of motion pictures in Southern California, and thousands more are engaged in industries and businesses that depend on motion-picture making for their existence; and

Whereas, it has been shown that more than \$500,000,000 has been invested by motion-picture producers in Los Angeles, and that nearly \$50,000,000 is paid out annually in salaries, a large part of which must find its way into various business channels of Los Angeles; and

Whereas, it is a fact that wherever censorship has been tried it has failed of its primary purpose, has become a tyranny of private opinion and similar conveyance of propaganda for personal interests; and

Whereas, such proposed censorship of motion pictures is contrary to all American ideals of free speech and free conduct, and will place in the hands of a few the power to cripple or destroy the largest industry in Southern California; therefore, be it

Resolved, that in view of the great importance of this matter to the welfare of Los Angeles, the board of directors of the Business Men's Co-Operative Association do denounce the proposed motion-picture censorship ordinance as a menace to the rights of the public, and a form of industry that will work untold harm to thousands of citizens; and be it further

Resolved, that the Honorable City Council be urged to kill the motion-picture censorship ordinance now before it, or any other ordinance that may be presented for its consideration that is hostile to the motion-picture industry.

Business Men's Co-Operative Association.  
(Signed) ORRA E. MONNETTE, President.  
GEORGE M. BARCOCK, Secretary.

## ZONE LAW PASSED.

Council Unit in Voting for New Building Regulations.

The new and comprehensive zoning ordinance, regulating future building activities throughout the city, was unanimously chosen yesterday afternoon by the City Council, and with it were approved the first five district maps, which are an integral part of the measure. The ordinance and maps will be posted at the Hall of Records, City Hall and Public Library, and after the measure and the maps have been posted for ten days, the ordinance will go into effect thirty days thereafter.

HUSBAND, WIFE, BANKRUPT.  
T. L. Stratton, carpenter, of Whittier, and his wife, Marcia E. Stratton filed a petition in bankruptcy in the United States District Court yesterday. Their liabilities, all unsecured, amount to \$2000, and his assets to \$180.25.

## Los Angeles Man Killed by Fall in Mine.

Dwight W. Bisbee, mining man of Los Angeles, was killed accidentally near Randsburg, according to word received yesterday by the widow at her home, 133 East Thirty-sixth street. Mr. Bisbee fell down a shaft at the Yellow Aster mine, according to the advices. He was inspecting the property with R. R. Bray, his partner. They left Los Angeles a few days ago.

Mr. Bisbee was the son of Judge De Witt Bisbee of San Francisco, founder of Bisbee, Ariz. He was born on Oct. 7, 1883, in San Francisco, and was educated at the University of California. His parents are dead.

Funeral arrangements are expected to be made today after the arrival of the body.

## CORONA WILL BACK ALL-YEAR MOVEMENT.

MERCHANTS' AND MANUFACTURERS' ASSOCIATION, COMMERCE BOARD GIVE O. K.

Following the endorsement of the All-Year Club of Southern California by the Merchants' and Manufacturers' Association of Corona, both that organization and the Corona Chamber of Commerce announced yesterday that each will appoint committees to assist in the All-Year movement.

The committees will devote themselves particularly to the raising of funds for the club in Corona, but also will aid in developing an All-Year organization throughout Riverside county.

Charles A. Harding, president of the Corona Chamber of Commerce, stated that he would take up at once the formation of one of these committees and Ermo Hough, the executive head of the Corona Merchants' and Manufacturers' Association, is taking similar action in that organization. Both Mr. Harding and Mr. Hough believe that full development of the All-Year idea will mean much to every one of the Southland's counties.

A hearty compliment for the All-Year advertising was received yesterday from a Colorado Springs newspaper publisher, who believes that what has been done here in Southern California may be helpful to other sections. He wrote in part:

"We wish to take this opportunity to compliment you on the fine advertising campaign which your club has been conducting this summer. We feel that we are able to judge advertising of this type for road purposes, and setting out that the county might build a road along the right of way, without any declaration as to the sort of road that should be built by the county. Also, it sets out the revocation by the county of the election to build a fence along the road, and the deposit in the hands of the clerk of certain moneys necessary under the terms of the final decree."

It is understood that the hearing will occupy several days. The Marblehead Land Company is represented by Nathan Newby, Will Anderson and Grant Jackson; the county by County Counsel Hill and his assistant, Paul Valles.

It is declared that the Marblehead Land Company is a corporation of the State of Delaware, made up of the stockholders in the Rindge Company for the express purpose of prosecuting the suit in the United States District Court. There is also a denial of the assertion that a public highway has existed on the land since April 23, 1918, with a history of the litigation that resulted in 1919, in the final decree condemning the land necessary for road purposes, and setting out that the county might build a road along the right of way, without any declaration as to the sort of road that should be built by the county. Also, it sets out the revocation by the county of the election to build a fence along the road, and the deposit in the hands of the clerk of certain moneys necessary under the terms of the final decree.

It is understood that the hearing will occupy several days. The Marblehead Land Company is represented by Nathan Newby, Will Anderson and Grant Jackson; the county by County Counsel Hill and his assistant, Paul Valles.

It is declared that the Marblehead Land Company is a corporation of the State of Delaware, made up of the stockholders in the Rindge Company for the express purpose of prosecuting the suit in the United States District Court. There is also a denial of the assertion that a public highway has existed on the land since April 23, 1918, with a history of the litigation that resulted in 1919, in the final decree condemning the land necessary for road purposes, and setting out that the county might build a road along the right of way, without any declaration as to the sort of road that should be built by the county. Also, it sets out the revocation by the county of the election to build a fence along the road, and the deposit in the hands of the clerk of certain moneys necessary under the terms of the final decree.

## ANSWERS SUIT ON RINDGE ROAD.

County Denies Assertions of Marblehead Company.

Case to Come Up Today for Hearing on Merits.

No Effort Made to Travel on Malibu Highway.

An answer to the complaint and supplemental complaint of the county in the action brought by the Marblehead Land Company, involving opening of a public road through the Malibu ranch, was filed in the United States District Court yesterday.

Under the stipulation reached in Judge Trippett's court Saturday, the case will come up this morning on its merits, when the right of the county to construct the road, under authority of the interlocutory judgment signed by Superior Judge McCormick on Feb. 11, 1919, will be threshed out. In the meantime, there is no effort being made by the county to have the thoroughfare open to public travel, and the situation in that regard remains in status quo until the final determination of the issues involved.

The answer denies categorically that any irreparable damage will result to the plaintiffs unless the county is restrained from opening the road; that there is any public road in Ventura county upon or across the land within ten miles of the northwest termination of the Malibu ranch; and that any estimate made by the road department in 1916, for the construction of a twenty-two-foot roadway, fixed the cost of grading and excavation at \$73,492.50, piping \$28,844.40, head walls \$1571, bridges \$16,285 and fencing \$2280, a total cost of \$118,422.50.

It is denied further that the county has not constructed a highway in the manner described in the final decree in the order of the condemnation; that the occupation of the road will be in being nature of the easement; and that the Board of Supervisors had notice of the restraining order issued by Judge Trippett.

It is declared that the Marblehead Land Company is a corporation of the State of Delaware, made up of the stockholders in the Rindge Company for the express purpose of prosecuting the suit in the United States District Court. There is also a denial of the assertion that a public highway has existed on the land since April 23, 1918, with a history of the litigation that resulted in 1919, in the final decree condemning the land necessary for road purposes, and setting out that the county might build a road along the right of way, without any declaration as to the sort of road that should be built by the county. Also, it sets out the revocation by the county of the election to build a fence along the road, and the deposit in the hands of the clerk of certain moneys necessary under the terms of the final decree.

It is understood that the hearing will occupy several days. The Marblehead Land Company is represented by Nathan Newby, Will Anderson and Grant Jackson; the county by County Counsel Hill and his assistant, Paul Valles.

## Smartness in English Luggage and Apparel

NE is going away—some time, if not now. And wherever one goes, Luggage will talk. It will tell all who see of the kind of taste and est care. That all it says may express good breeding, one chooses it with the

English is to Luggage as English is to Men's Wearables. The ultimate rectness.

Wednesday, Robinson's are having a great display of the new things in English Luggage. Never has their stock been more attractive or more complete. Never has it offered such opportunities for the selection of fine holiday gifts.

### English Suit Cases for Women

THEY are made of heavy sole leather, with hand-sewed edges. The moire lining has shirred pockets in the body of the case for one's own fittings, and another pocket in the lid.

These Suit Cases may be had in 3 sizes: 20, 22 and 24 inch.

They are priced at \$55.00 plus war tax of \$3.00, \$60.00 plus war tax of \$3.50 and \$65.00 plus war tax of \$4.00, respectively.

FOURTH FLOOR

### Leather Steamer Trunks

THIS is the last word in fine luggage: A Trunk of solid, first quality sole leather.

A Trunk that gains in beauty with wear, like all fine leather goods. And a Trunk that will outwear all others so well constructed is it with its riveted corners, sewed and riveted edges, all around straps and brass locks.

It is protected with a cover of heavy canvas with leather corners and leather-bound edges.

It is priced \$185, plus \$13.50 war tax.

FOURTH FLOOR

### Women's English Kit Bags

BAGS like these may be folded up and packed in as little space as a folded newspaper. Or they may be expanded to hold the necessities of a week's trip. They are of cowhide and gisquin. The frames are thoroughly well sewed. They have cloth lining with pockets; and are fitted with brass locks. They are 16 and 18 inches long.

The Cowhide Bags are priced at \$28.50 and \$33.50 plus war tax. The Piquein Bags, \$43.50 and \$48.50, plus war tax.

FOURTH FLOOR

### Women's Burberry Coats

FOR motoring and for sports wear the well-dressed woman asks for a Burberry Coat. She likes the freedom of its loosely cut sleeves, the smartness of its unusual belt and deep convertible collar. And above all the splendid warmth, without weight, of its soft Scotch fleece.

Robinson's carry a full line of Burberry Coats in the most attractive

A Very Remarkable Sale of Unbleached Muslin

# Bed Spreads with Bolsters (Stamped) at \$3.25

2000 Pairs Women's High Grade  
Pumps—Oxfords—Straps  
In a Rousing Jacoby Sale at

\$3.50

No C. O. D.'s  
No Exchanges

Sale Opens at 9  
Wednesday Morning

It's a really sensational demonstration of Jacoby value-giving, for these are pumps, oxfords and strap effects that sell regularly for 'way and 'WAY more!

To look over the list of the styles gives a pretty fair idea of what you may expect, and when you see the shoes you will want several pairs.

The 2000 pairs consist of:

Patent "Jazz" Oxfords with low heels and flexible soles. A wonderful special purchase, priced \$3.50.

Patent Grecian Sandals—A very smart style that usually sells for more—\$3.50.

Black Kid Strap Slippers—A very neat-fitting style, having French heels and imitation stitched tips, \$3.50.

Black Satin Slippers—A style with one strap, full Louis heels and light turned soles, \$3.50.

Black Kid Oxfords—A military style having medium round toe and flexible soles, \$3.50.

We know from previous shoe sales how women will flock to take advantage of values like these, and we will have plenty of extra salespeople to keep the service well up to the Jacoby standard.

Main Floor—North Building—Jacoby's

The Art Needlework Store is going after the biggest day in its history—and certainly it has chosen for a headliner a value so sensational that hundreds of readers of today's Times will be busy talking about it today. You know—every woman knows—what these beautiful Bed Spreads of unbleached muslin sell for in the regular way! These are all stamped for the new applied patch-work (the colored patches are included) and then there is a bolster to match. Both to go in this sale for \$3.25.

Another Unbleached Muslin Spread—\$2.50  
—These are stamped in an attractive butterfly design to be worked in outline. Very specially priced at \$2.50.

300 Stamped Dresser Scarfs—79c  
—Not what you'd expect ordinarily to find at 79c! But they happen to be a lucky "pick-up" and you're going to make a big saving on them. —They are stamped in many, many designs of dainty wreaths and sprays, besides being trimmed with a lace edge. And note this! They even have inserts of fillet-lace medallions. —Did you ever dream of getting a dresser scarf such as this for 79c?

Stamped Ready-Made House Dresses 79c at.....  
—Not long ago we saw these very same stamped house dresses featured in a big sale at nearly double this price. —Just think! Stamped and ready to wear at 79c! Colors include rose, blue, green and tan.

Extra! Stamped Pillow Cases at... 1.39  
—And note, please, that they have hemstitched scalloped edges! Made of excellent quality tubing and stamped in many pretty designs.

The Much-Demanded CANTON CREPES ..... \$1.85

—They include both the silk-and-wool and the silk-and-cotton Cantons and there's practically every shade that the woman who keeps in touch with things demands.

50-Inch Molequilt Fabric Fur at \$4.95  
—This is less than half price for the wholesale man was anxious to realize cash on his oversupply of the famous Shelton fabric fur. A scarf of this is a real economy.

They'll Launder! Zephyr Plaids \$1.98  
—And that makes these pretty woolen fabrics so likable for school wear. There are numerous patterns. All 42 inches wide.

345 Yards Sturdy 54-Inch Serge \$1.00  
—A well woven navy, storm serge that will make good pleated skirts for the school girl.

Second Floor, North Building—Jacoby's

Basement Week  
Brings Out an  
Important 2-Price  
Sale of New  
Striped Prunella  
SKIRTS  
\$7.98—\$9.98

We had a bit of good fortune in our buying and picked up these very superior skirts for a much less than regular price.

They are the sort you see at 'way higher prices as every detail of material and making shows.

Box pleated and in black, brown and navy with effective contrasting stripes.

Sateen Petticoats—98c

Two styles that come in the popular dark shades and are made with elastic at waistline. Sizes to 39.

Jacoby's Underprice Basement, South Building

That Great BEDDING SALE Continues!

66x80-in. Wool Blankets at \$6.98

—And when we say "wool"—we mean just that! —We have only fifty pairs of these blankets—we wish there were three times as many, for it's been a long, long while since such blankets sold for so little, and it's pretty apt to be a long while before they do again.

—Note that they're a good big generous size—full 66x80-inch—and note, too, that they come in a variety of attractively colored plaids.

—No phone orders and none sent C. O. D.

66x80-Inch Plaid Blankets, \$9.98  
—The bright colored Scotch plaids and of a very superior quality.

64x76-Inch Plaid Blankets, \$2.49  
—Nashua cotton blankets in the heather plaids. A limited quantity.

60x76-Inch Nashua Blankets, \$2.25  
—They're plain white and plain tan—well-known cotton blankets, 'way low.

200 Pairs Woolnap Blankets, \$3.50  
—There are both plain and plaid blankets, really wonderful values!

40 Pairs Beacon Blankets, \$7.49  
—Corded blankets from this famous mill. Better come early for these!

72x84-Inch Cotton Comforts, \$4.98  
—They are filled with new grey cotton and are simply wonderful for value!

100 Pairs Beacon Blankets, \$4.98  
—This special price includes cord. They are extra large and the patterns very attractive.

66x90-Inch Pequot Sheets, \$1.25  
—Pequot products need no praising! Only 10 dozen of these—come early!

72x90-Inch Seamless Sheets, 75c  
—There are only twenty dozen at this wonderfully low price.

72x90-Inch "New Era" Sheets, 89c  
—Seamless, bleached and neatly hemmed sheets at a remarkably low price.

72x90-Inch Mohawk Sheets, \$1.25  
—Just 400 underspread for this sale. Special value course will appreciate!

42x56-Inch Pillow Cases, 35c Each  
—100 of them and they are the "Fruit-of-the-Loom" and "Wear-Well" brands.

Here's Some Splendid News for Wednesday

Nearly 600 of These New  
Percale Frocks  
Like the Pictures  
\$1.00

—We need to tell you the name of these frocks—they're known everywhere and their worth is known, too!

—How women who love to wear these clever Neighborhood Frocks will exclaim and make their plans not to miss this sale!

—They are dress aprons in the two pretty styles shown in the sketch and anybody knows without being told that they are 'way, 'WAY low at \$1.00!

—Made of checked and light patterned percale and the price should make a quick sale for the last one of them!

Second Floor, North Building—Jacoby's

New Silk Stockings (Slightly Imperfect) 79c

—A brand new lot that has just reached us in time to have a first showing Wednesday! They are slightly imperfect pairs of some well known thread silk stockings that would sell for practically double ordinarily.

—You'll want pairs and pairs at 79c for you will find it hard indeed to see the least thing wrong with them.

—In black, white and cordovan.

—Main Floor, North Building—Jacoby's

## ENDING YEARS IN THE ARCTIC

Youngest Sub-Polar Explorer  
on His Way Home.

Capt. Harold Noice is Heard  
From by Parents.

Trip of Few Months Extended  
Into Lengthy One.

(BY THE ASSOCIATED PRESS.)  
SEATTLE (Wash.) Oct. 18.—Capt. Harold Noice, known as one of the youngest of the sub-polar explorers, is shortly to return to his home after six years of exploration and adventure along the Arctic coasts of Alaska and Canada, according to a cablegram received from him from Teller, Alaska, recently.

The cablegram told of his arrival at Teller on the Hudson Bay Company's steamer Lady Kindersley, which had picked him up at Three Rivers, 1500 miles east of Herschel Island, Alaska, recently.

In March, 1915, Noice, then only 19 years old, joined Capt. Louis Lane in his famous Arctic trading expedition on the power schooner Polaris. He expected to be back in Seattle within a few months, but instead, he remained six years in the north.

STEFANSON FOUND.  
During the summer of 1915 the Polaris sailed eastward along the Arctic Coast, trading furs and searching for Vilhjalmar Stefansson, the explorer, who had been missing in the Arctic for more than two years. Finally Lane found Stefansson, and Noice joined the latter's

## LIFE DARK FOR YOUNG BRIDE.

Arrested Following Quarrel  
With Husband, Tries to  
End Her Life.

(SPECIAL DISPATCH.)  
CHICAGO, Oct. 18.—Mrs. Josephine Perno is but 17, but she is a bride and life looked very dark to her. She and her husband, who is a Great Lakes sailor, quarreled frequently and have had each other arrested a number of times. Saturday night they were fighting on a street corner when another sailor attempted to interfere. Perno fled and Mrs. Perno and her husband were arrested. Today Judge Newcomer fined her \$75 and ordered her sent to the Bridewell. She immediately retired to a rooming house and cut her throat and wrists with a razor blade. She was discovered promptly and surgical care may save her life.

When the expedition began the return to civilization, in 1918, Noice purchased an old trading schooner and began in earnest the career of an explorer. During the last three years, according to the messenger news that has found its way south, he has chafed his life against the shores of the Northwest Passage, as well as the Victoria Land coast line. Last summer, according to a letter to his parents, he was engaged in the penetration of the Victoria Land interior. At the same time his parents learned he was completing the work on a dictionary of the Eskimo language, said to be the first of its kind ever compiled.

## Does Your Housework Tire You?

If your housework tires you unduly, if you suffer from headache, indigestion, biliousness or "blues," it means that your liver is out of order, your stomach is upset or your bowels are not working properly.

**CHAMBERLAIN'S TABLETS** will provide the gentle stimulus that will set nature properly at work again. They will quicken your sluggish liver, tone up your stomach and gently cleanse your bowels.

You should keep a bottle of CHAMBERLAIN'S TABLETS in the house at all times for the first sign of headache or indigestion.

**TRY THEM** A generous sample free on request. **BUY THEM** 25 cents at all drug stores.

## Is Your Blood Free Of Waste Products?

Many Human Ills Due to Waste Products in the Blood.

How Nature Shows Her Danger Signals.

The human system is forever striving to get rid of the waste matter which accumulates. It is a life work that goes on forever. When waste products remain in the system and get in the blood, they cause sickness and poor health. Nature then sends help. If your face is pale and drawn; if you are under weight; if you suffer from rheumatism or skin eruptions, such as eczema, sores, pimples, or boils, you may know that your blood and general system is filled with these poisonous waste products. In this condition you are an easy prey to all kinds of diseases because your strength and vitality is "below par"—you haven't the power to fight off disease.

S. S. S. through its blood purifying and system building qualities, aids nature in throwing off these poisonous waste products. It has proven this by the fact that it has relieved thousands and thousands of cases of rheumatism, skin diseases, and has restored health, strength and vitality to untold numbers of men and women who were weak and run-down. If you, or any one of your family, are not enjoying perfect health, look out for the waste products which have accumulated in the system. Get rid of them before they wreck your health. Get S. S. S. from your drug store and use it according to directions. Give yourself, or them, a course. His advice has helped thousands. Write him about your case. Also ask him to send you his illustrated booklet, "Facts About the Blood"—free. Address: Chief Medical Director, Specific Co., 734 S. S. S. Laboratory, Atlanta, Ga. S. S. S. is sold by all druggists. ## KERNEL COOTIE—PA AND MA IN A CROWDED PICTURE SHOW.

## GAS BAGS ON TEST FLIGHT.

(Continued from First Page.)

Intervals of fifteen minutes during the flights. At 5 p.m. Balloon No. 25-28, with a capacity of 25,000 cubic feet of hydrogen gas, took off from the field. It carries Capt. L. P. Stone as pilot, and Capt. H. V. Hopkins, First Lieutenant C. M. Brown and First Lieutenant C. P. Kane as passengers. The balloon rose rapidly to an elevation of 1500 feet and headed in a southeasterly direction.

At 5:05 p.m., Balloon No. 25-17, with a capacity of 25,000 cubic feet of gas, soared aloft. In this basket were First Lieut. J. L. Sullivan as pilot and Capt. W. D. Wheeler, Capt. L. T. Miller and First Lieut. J. F. Powell as passengers. No. 25-17 ascended to an elevation of less than 500 feet and disappeared behind the trees as it skirted the fringe of mountains in a direct easterly direction.

**LAST BALLOON RISES.**  
The last balloon to take off, No. 19-24, with a 19,000 cubic feet capacity, left the field at 5:10 p.m. and followed in the course of the first balloon. It was capt. H. C. Gray as pilot, and Capt. Edgar P. Sorenson as passenger. Each balloon carried two homing pigeons, to convey messages back to the balloon headquarters in the event of any accidents or to convey information for rescue parties if the balloons and their crews are lost. At regular intervals, small parachutes were dropped throughout the night, announcing the position of the bags aloft and giving other information from the crews.

## Woman, Well Known Here, Is Shot in East.

Deaconess Josephine Peterson of the Protestant Episcopal Church, well known in Los Angeles church circles, is lying seriously wounded in a hospital in Galesburg, Ill., friends in Santa Barbara were notified yesterday. It is reported she was shot by a negro, the bullet penetrating a lung and lodging behind the heart. It will not be removed until she has recovered from the shock of the injury. The cause of the shooting was not reported. Miss Peterson left Santa Barbara a year ago to continue church work in Galesburg.

## NEWSPAPER MEN CLOSE MEET HERE.

Circulation Managers End  
Two-Day Convention With  
Dance at Ambassador.

The California Circulation Managers' convention, held at Hotel Clark, closed its two-day session last night with a ball at the Ambassador. Representatives spent the afternoon in a sight-seeing trip about the city. The next annual convention will be held at Fresno. The following officers and directors were elected for the coming year: President, E. L. Simpkins, Mercury, San Jose; first vice-president, R. J. Corrigan, the Examiner, Los Angeles; second vice-president, J. V. McClatchy, the Bee, Sacramento; secretary, George A. Fisher, the Chronicle, San Francisco; directors: B. W. Bates, Daily News San Francisco; Rex J. Young, Herald, Modesto; O. F. Thayer, Sun, San Bernardino; L. O. Hammond, Daily Facts, Redlands; A. E. Crawford, Examiner, San Francisco; J. R. Brown, Republican, Santa Rosa; W. V. O'Farrell, The Union, San Diego; H. H. Cantrell, Star News, Pasadena.

Circulation managers attending the convention represented newspapers with a total circulation exceeding 1,500,000 daily. W. F. D. Brown of the Oakland Tribune presided over this convention and John E. Gray of the Call-Post, San Francisco, was secretary and treasurer.

## STEAMSHIP SLOGANS ARE SENT FROM AFAR.

COWBOY ON NEVADA DESERT  
TRIES FOR PRIZE OFFERED  
FOR SUGGESTIONS.

How extensively the terms of the Yale and Harvard slogan contest, now being conducted by the Los Angeles Steamship Company, is being circulated is shown by an entry received from a ranch on the Nevada desert. The contender is a cowboy, who makes it clear that he has ridden both vessels. Knows how fine they are and suggests a phrase to embody his recollection of them. Other slogans are being brought in by school children, who deposit them with suppression eagerness in the receptacle at the company's office, 517 South Spring street. In fact, according to officials of the company, suggestions are being received from all parts of California

## Oh, Man!

## ANTI-JAP LAW TO BE TESTED.

(Continued from First Page.)  
vised statutes of the United States, that it violates Section 2144 of the same statutes; that it is invalid, arbitrary, offensive and unequal. Much stress is placed upon the Japanese treaty, which it is contended guarantees to the Japanese all rights possessed by citizens of the State.

A permanent injunction is asked restraining all State authorities from bringing any suit or proceedings at law to enforce the act at any time.

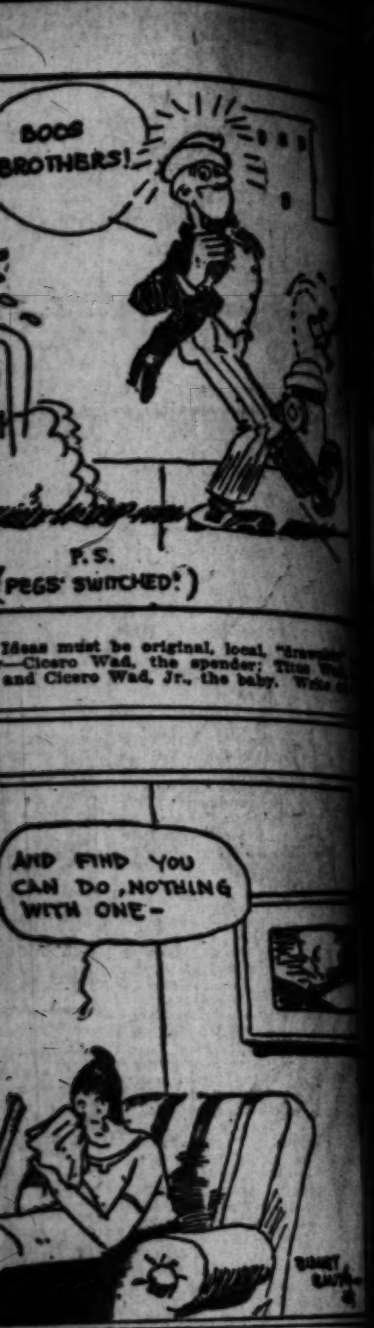

## MAY BUY SITE FOR RECEIVING HOSPITAL.

The Finance Committee of the City Council was instructed yesterday to make an investigation to ascertain the cost of a site near First street and Broadway, where the city could build a structure to house the Receiving Hospital, police assembly rooms and department garage. The motion to take first steps to provide the new police department building was offered by Councilman Sparks, and seconded by Councilman Wheeler.

## THOUSANDS IN PUN STOLEN BY BURGLES.

Possessed at least 100,000 were the last night of the thieves that only recently had been released from the state prison. According to the police, the thieves had been released from the state prison after serving three years for burglary. The police are now looking for the thieves who had been released from the state prison after serving three years for burglary. The police are now looking for the thieves who had been released from the state prison after serving three years for burglary.

**for Delicious Creamed Vegetables**

When the family begins to tire of the vegetables you set before them, give them a change—serve the same vegetables CREAMED.

It adds zest to the call for dinner—a delightful richness of taste that accentuates the natural flavor of the vegetables.

### FIVE HUNDRED POLICE SOUGHT

Commissioners and Chief to Request Larger Force.

Funds to Employ More Men Declared Available.

City Auditor's Report Shows Ample Cash Reserve.

Police Commissioners De la Monte and De Coo and Chief Jones will this afternoon appear before the Finance Committee of the City Council, of which Councilman Mushet is chairman and President Griswold and Councilman Mallard are members, and strongly urge that recommendation be made to the Council for the immediate employment of 500 additional police patrolmen. At a meeting of the commission yesterday, a report of City Auditor Myers was presented, showing that the city will this year have, on most conservative estimates, a surplus due to increased revenues of at least \$270,000, which would be ample to provide at least 250 patrolmen, two deputy chiefs of police and the necessary sergeants, lieutenants and captains to exercise supervision over the increased police force. Mr. Myers pointed out the startling condition of the reserve fund, which amounts to \$1,750,000, and from which, the auditor says, additional money could be safely appropriated for the purpose of paying the salaries of police-men.

The Police Commission's letter to the City Council upon which this afternoon's hearing is based, was as follows:

Los Angeles, Oct. 18, 1921. Honorable City Council, Building.

Gentlemen: In response to our request on the City Auditor, we are in receipt of a report embracing his survey of the city finances, which report indicates that sufficient funds are available to warrant your honorable body in making immediate provision for the employment of at least 500 additional police-men, as well as two assistant chiefs.

The needs of the department are such that a small number of men would be of but little assistance as a matter of fact—the department urgently needs 1000 more officers, and we deem it also as imperative that the Chief have two assistants to co-operate in bringing up the standard of efficiency and carrying out the policies of the administration.

For your information, we are attaching hereto the report above referred to, as well as an analysis of the department, and we would respectfully request that your honorable body grant us a hearing in this matter before any definite action is taken.

Respectfully submitted,  
C. E. McKEAG, Secretary.

Charles E. Erbstein, Noted Chicago Attorney.

### Rule on Trial For Madalynne Due Saturday.

Whether or not Mrs. Madalynne Obenchain, accused of the murder of J. Belton Kennedy, will have a trial separate from that of Arthur C. Burch, also accused of the offense, will be decided on Saturday. It was announced yesterday by Judge Reeve, before whom the case will be tried. By Saturday it was stated by Ralph Obenchain, former husband and of defense counsel for Mrs. Obenchain, it is expected that Charles E. Erbstein, well-known criminal attorney of Chicago, will have arrived in this city to take part in the argument for a separate trial.

Upon request of Dist. Atty. Woolwine and Deputy Keyes, who will prosecute the case, the court has instructed the defense attorneys, Warren L. Williams and Mr. Obenchain, to file with the court today affidavits bearing out their contention that Mrs. Obenchain is entitled to a trial separate from that of Burch.

### RETAINS EXAMINERS.

Governor Reappoints Five Members of State Medical Board.

Gov. Stephens yesterday reappointed five members of the State Board of Medical Examiners for four-year terms, said a dispatch from Sacramento, last night. However, the successor of Dr. Alfred J. Scott of Los Angeles, who dropped dead Sunday on the Capitol grounds, was not named.

The reappointed members include Dr. R. A. Campbell and Dr. W. H. Molony of Los Angeles. The others are Dr. P. T. Phillips of Santa Cruz, president of the board; Dr. C. B. Pinkham, San Francisco, its secretary, and Dr. H. E. Alderson, San Francisco.

### GILMORE TELLS OF WRANGLES.

Bitter Quarrels With Wife Detailed by Oil Man.

Family Auto is Shown to be Fruitful Fight Cause.

Physician Classes Woman's Malady as Progressive.

The Gilmore divorce suit, on trial yesterday before Judge Weilborn, points very strongly to the family automobile as a fruitful source of bitter quarrelling. The examination of Earl E. Gilmore, oil man, whose wife, Louise H. Gilmore, is a member of the Hauser family, showed the following episodes:

A dispute in the presence of their children while the Gilmores were driving to Bear Valley. When Mr. Gilmore failed to stop at Fawnkin Lodge, and continued on to another lodge, he said his wife refused to stop at the latter. She wanted him to drive back to Fawnkin. He refused and finally won his way.

A wrangle while they were out driving one night, resulting in Mr. Gilmore "assaulting" his wife from the automobile, and driving off, leaving her on the sidewalk. He said they were only about two blocks from their home. The defense contended the home was six blocks away. The time was after midnight.

Contention while driving to Santa Maria oil fields. Instead of using the Pierce Arrow car Mr. Gilmore obtained an inferior one from an employee. The machine broke down and had to be repaired at Santa Barbara.

In the bungalow at Santa Maria, Mr. Gilmore, suffering from a cold, was attended by the wife of a hired man, Mrs. Gilmore doing nothing to assist him, the plaintiff said.

A quarrel at their home. Mr. Gilmore admitted he struck his wife with the back of his hand because she called him a fighting name and told him to get out. The defense asserts he knocked her down.

Mr. Gilmore and his witnesses closed their testimony yesterday, and the defense started to put on its case. Mrs. Gilmore is in a private sanatorium. She has been declared incompetent at the time the purported acts were committed.

E. C. Hauser, Mrs. Gilmore's brother, his wife and Attorney Indora B. Dockweiler's secretary, Mrs. Humphreys, testified as to the idiosyncrasies of the defendant. They declared that she could not concentrate; she became hysterical when excited; apparently trivial things would excite her; her opposition aroused her.

Dr. H. G. Brainerd testified that in his opinion Mrs. Gilmore is insane and that her mental malady is of the progressive order.

## DRIVE TO AID MOTHERS-TO-BE

Chi Omega Sorority to Give Card Benefit Soon.

Maternity Home Needs More Than Double Capacity.

Los Angeles Federation is for Disarmament.

Established for the care of needy mothers-to-be, the Maternity Cottage and homeopathic hospital has gone steadily forward in usefulness and this week the unqualified esteem of the public for its splendid work.

In the Friday Morning clubhouse Saturday beginning at 2:30 p.m., the Chi Omega Sorority will give a card benefit for the benefit of the cottage. This sorority has equipped the diet kitchen, bought an electric washer and now wishes to help with the building fund.

There is a mortgage of \$4000 on the cottage and hospital, which is hoped can be burned by April of next year, but this will depend entirely upon the generosity of friends and upon the success of such benefits as the sorority is giving Saturday. The building is semiprivate, with sixteen beds which do not begin to meet the need. Last month more than again as many as could be accommodated were turned away.

Physicians agree that the safest and best place for confinement cases is a good hospital. If this be true for the mothers who live in lonely homes who can afford vital necessities, how much more important is it for mothers who live in lonely ranch houses, in single apartments or in small and meagerly equipped homes, often with a family of children. More than 3500 such mothers have been cared for since March, 1927, with the loss of but three, a record unequalled anywhere, so far as can be learned.

This is the only place for wives where they may have good nursing, in a clean, comfortable, home-like place, which their children will not be ashamed in after years to claim as their birthplace.

The Friday Morning Club is donating the use of its home and the pasty with Mrs. John D. Fredericks as one of the committee has the patronage of the executive board of the cottage including Mrs. William Beuryte, Mrs. W. J. Van Valkenberg, Miss Monette Steele, G. Morgan Galtbreth, Mrs. M. E. Fox, Mrs. C. C. Wright, Mrs. Fredericks, Mrs. Harry

## Efficient Housekeeping

By Laura A. Kurkman

**CREPE LUNCHEON SET.**  
Several of my readers have written to ask me to print an occasional needlework article. So in the future I will comply with this request. Today I will describe one of the new crepe luncheon sets that are "all the rage." These are dainty and yet are a wonderful help to a busy housekeeper because they require no ironing after washing.

This set consists of a centerpiece and six dollies (you can also make six napkins, if you wish, in the same way, only making them a little smaller than the dollies). White crepe is used for the centerpiece, two wide, so the centerpiece is thirty by thirty inches square and the dollies are fifteen by fifteen squares (two are gotten out of the width of the material). You will need two and one-eighth yards for this set (thirty inches the length of the material for the centerpiece, and fifteen more inches the length of the material for each of the dollies).

This cotton crepe costs anywhere from 19 cents a yard to 32 cents, according to the locality in which you buy it. Besides this material you will need about six skeins of either mercerized silk or real silk floss of various colors, and one of the transfer designs gotten out by pattern firms. These transfer patterns come in flower designs, butterfly designs, and in hosts of other designs; they are stamped on the material by placing the pattern ink-side down on the crepe and running a moderately warm iron over the pattern-paper.

You will want a small design in one corner of each of the six dollies and a slightly larger design in one corner of the centerpiece (both large and small repetitions of the same design come on these patterns). After buying your crepe material, however, the first step is not to stamp it; the first step, after cutting it into the centerpiece and six dollies, is to fringe the squares. The fringe runs all around each square and is about three-quarters of an inch deep. Do the fringing with a plain needle and thread, and small repetitions of the same design come on these patterns.

After buying your crepe material, however, the first step is not to stamp it; the first step, after cutting it into the centerpiece and six dollies, is to fringe the squares. The fringe runs all around each square and is about three-quarters of an inch deep. Do the fringing with a plain needle and thread, and small repetitions of the same design come on these patterns.

Notes that you have your centerpiece and six dollies fringed, you can go to work stamping them. Then comes the last step, embroidery.

Bring them. If you have chosen a butterfly pattern I would advise you to make the circles inside the wings yellow, and the border of the wings a different color with each napkin; in this way, the yellow spots represent the golden spots on a real butterfly's wings, and yet the other colors (lavender, blue, old-rose, etc.) may be introduced on the different dollies with the gold note the only thing to make them similar.

(All handiwork addressed to Miss Kurkman, in care of the "Efficient Housekeeping" department, will be answered in these columns in their turn. This may considerable time, however, in the great number received. ## You Must Beat Constipation Before it "Gets" your Health!

Do you realize that constipation will  
"get" you if you don't relieve this dan-  
gerous condition permanently? Do you  
also know that pills and cathartics are  
not only habit-forming but that in  
their temporary action they aggravate  
an already dangerous condition?

What you need is a natural  
method—KELLOGG'S BRAN, cooked and  
crumbled. Bran is not a "remedy," but  
it is a wonderful natural cleanser that  
will actually free you from constipation  
if eaten regularly.

Results from eating Kellogg's Bran  
are astounding! Bran keeps the intes-  
tinal tract active; it sweeps, cleanses,  
purifies!

Physicians endorse Kellogg's Bran for  
constipation. It is the ideal way to  
correct constipation through food. We  
guarantee that Kellogg's Bran, cooked  
and crumbled, will relieve constipation  
permanently if it is eaten regularly.

You should also know that the con-  
stant use of Kellogg's Bran clears up  
the complexion and prevents bad breath  
from stomach and intestines.

You and your family should eat Kel-  
logg's Bran, cooked and crumbled, ev-  
ery day. It is not only palatable—but  
actually delicious! It's not like sugar  
in most appetizing. Children become  
very fond of Kellogg's Bran. And it  
is wonderfully good as a builder of  
strong, healthy bodies!

Use Kellogg's Bran, cooked and  
crumbled, as a cereal. With your favor-  
ite cereal or in quantities water-plas-  
ting ways like in muffins, raisin bread,  
macaroni, gravies, etc.

F. A. Kellogg's Bran makes the most  
delicious pancakes you ever ate. Bran  
pancakes tomorrow!—(Advertisement.)

## "For Vision's Sake"

### After Forty Years!

By C. H. HEARD, D. O.

PRESS dispatches state that Senator  
Core of Oklahoma, after a series of  
operations, has been able to discern  
flashes of light—AFTER FORTY YEARS  
of total blindness.

These flashes of light brought a thrill  
to the heart of Senator Core that only  
the blind could appreciate—and would  
that the blind could send a message to  
those that possess VISION yet suffer it  
to be abused.

## "Don't Trifle With Your Eyes"

## The First Record

the song of the sea

WHEN the Sun first hid his face from the Sea, She became  
very angry. She roared, moaned and wept into the  
pink-lined shells nesting in the green-blue depths.  
In her fury, she shook the waves until they dashed  
the frightened shells ashore—The Sun shone. The sea smiled.  
The waves rippled and gurgled into the dainty pink shell-ears.

Thus the first Record was made—the Song of the Sea.

And so children, almost since the world began have been told:  
"Hold the shell to your ear, and you'll hear the Sea singing."

But not for thousands of years did man discover that sound  
waves which travel almost exactly like waves of water could be  
recorded—that the sound waves carrying the songs of the human  
voice and the playing of the world's great musicians could be  
written on wax by a jeweled finger—a finger of flawless blue  
sapphire—and the wax impression transferred to a lasting record.

Why the Vocalion Red Record equals

The mechanics of making music records vary but little. The dif-  
ference which you notice instantly in Vocalion Records comes from  
skill and infinite care in recording and also from the perfect repro-  
duction of the delicate wax impression into a permanent record.

A musician, with ear so delicate, that no note however subtle  
can escape him, directs the making of Vocalion records—and not  
until the delicate mica disc—the ear of the phonograph—records  
the music as faithfully in tone and color as does the director's  
ear, will a record be allowed to pass.

Vocalion Records play on any Phonograph

In order that you may feel the music as well as hear it—they  
should be played on—

## The VOCALION

The Phonograph Supreme

Musicians choose Vocalion  
—the talking machine raised  
to the standards of a musical  
instrument. The world's  
foremost makers of musical  
instruments, the Aeolian  
Company, have put into The  
Vocalion not only science,  
but the musician's art. And  
more than that, with

Vocalion Has No Equal  
If you hear The Vocalion  
before hearing other Phono-  
graphs you are likely to buy  
it believing that there could  
not be a better one. If you  
hear it after you have heard  
others, you are sure to buy  
it—knowing that it has no  
equal.

The Gradual  
you control the music—it  
lifts the phonograph out of  
the reproducing stage into  
the creating—play the  
violin from your own heart  
—you set your soul to music.

In a Style to Harmonize  
Whether your home be fur-  
nished after an old world  
"period"—or a pleasant  
blending of the old and  
new—there's a Vocalion to  
complete the harmony.

All 1921 Vocalion Models are priced at pre-war values

CHARGE YOUTH  
EVADING DRAFT.

Authorities at San Diego to  
Try Hard for Conviction.

Traced Man to Mexico and to  
St. Louis.

High-Tension Wire Kills Chief  
Machinist's Mate.

(SPECIAL DISPATCH.)  
SAN DIEGO, Oct. 18.—Chief  
Stewart, said by government officials to be the first slacker reported in Southern California, will be tried at the next session of the United States District Court, Dave Gershon, special agent of the Department of Justice, said today.

Stewart was reported for failure to register two days after the first draft went into effect, June 1, 1917. Gershon, determined to make an example of him, traced him to El Paso and then to Ensenada, where he disappeared.

On November 2, 1920, Stewart was arrested in St. Louis by the secret service coming across the line from Mexico shortly after the armistice. Legal procedure is said to be responsible for the long delay in bringing him to trial. Government officials and ex-service men here are looking forward to the forthcoming trial with considerable interest.

Stewart, who lives with his father at 1801 National avenue, was born and raised in San Diego. Some time before the war he went to Los Angeles and obtained employment in the City Engineer's office there, but returned here just prior to the registration date.

Navy man killed.  
E. R. Brittain, chief machinist's mate, was fatally injured this morning when he was struck by a high tension wire while working in a punt alongside the U.S.S. Palmer. He died in the ship's dispensary a short time later. When Brittain fell into the water, Gunnery Volunteer, who was standing near by, dived overboard and brought the unconscious man to the deck. The police ambulance was called, and Patrolman George Wilson worked over the injured man for nearly an hour with the pump, but his efforts were unavailing.

Brittain leaves a wife and child, both living here.

Going at Hotel del Coronado.—

PRESIDENT FAVORS  
BIG DAM PROJECT.

SENDS SECRETARY FILL TO  
SAN DIEGO TO DISCUSS  
THE DETAILS.

(SPECIAL DISPATCH.)  
SAN DIEGO, Oct. 18.—According to advice from Washington, Secretary of the Interior Albert B. Fall, will come to San Diego the first week in November, if this date is acceptable to all concerned, to meet in conference with representatives of Southern California, Arizona and Nevada to make definite plans for early starting of work on the Boulder Canyon dam project.

Senator Fall will meet with President Harding at the White House this afternoon to perfect arrangements for the meeting and the decision was reached to hold the conference in San Diego as early as possible. The first week in November was preferred, but if that date is impracticable, then Secretary Fall has requested that it be set as soon after November 15 as possible.

The Boulder Canyon project was discussed by the President and Secretary Fall at great length and the President gave his enthusiastic endorsement to Federal building of the great dam.

With the preliminary plans completed, President Harding agreed that all possible pressure should be brought to bear on Congress to appropriate during the present session sufficient funds for starting the work.

October is fine at "Coronado."—

CUTS CHILD'S HAIR.

Vandal Robs Little Girl of Her  
Golden Treasures.

(SPECIAL DISPATCH.)  
LONG BEACH, Oct. 18.—An unidentified vandal today stole the beautiful locks of Mildred Ketcherside, 10-year-old daughter of Hugh N. Ketcherside, attorney and vice-president of the Farmers' and Merchants' Bank.

The stranger crept up behind the girl and clipped her three braids of hair which hung below her waist. He snatched them close to her head at the base of the skull.

The Ketcherside home is at 643 Euclid avenue. The girl was returning from an errand to a nearby grocery store when the attack occurred. The police have a good description of the assailant, who had frequently followed the girl recently and even remarked to her on several occasions on the beauty and length of her hair.

The man who made the attack is described as being about 25 years old, of medium height, wearing blue overalls, a cowboy hat, blue shirt and heavy shoes.

SEEK FEDERAL JOB.

(LOCAL CORRESPONDENCE.)  
GLENDALE, Oct. 18.—Dr. Jesse A. Russell, of 641 North Highland avenue is a candidate for the place as postmistress of Glendale. She is one of the most prominent club women of Glendale, prominent worker in civic movements, and an active member of the local Chamber of Commerce.

For three years Dr. Russell was state president of the California Mothers and Parents Teachers Association. She has been a resident of Glendale for twelve years.

Dr. Ripley Jackson of 181 South Brand Boulevard is also a candidate. He has been a resident here for five years, coming from New York City, where he was a broker.

At Newport.  
Susan (age 5): Do you like your new hair?  
Jack (age 8): Yes.  
"So did we. We had him last year."—[Life.]

INDIVIDUALLY O.K.;  
COLLECTIVELY N.G.

(LOCAL CORRESPONDENCE.)  
RIVERSIDE, Oct. 18.—"Individually I think you are fine business men, but collectively I think you are a set of damn fools," was the startling comment made by L. Y. McFarland to the members of the Board of Utilities last night, following the filing of his resignation as superintendent of the water department.

McFarland came here from Tulsa, Okla., ten months ago. Mayor Porter, as president of the board and acting for its members, asked for McFarland's resignation. In his letter to the Mayor, McFarland said that the failure of the board to endorse his recommendations "leads to only one conclusion, and that is either I do not know how to operate the water department of the city of Riverside or they [the board] do not desire me to dictate what should be the policy of the water department."

With not a word of comment the board accepted the resignation and allowed silence, like a poultice, the incident to subside.

\*\*\*\*\*  
DEFENSE  
TO PLEAD  
INSANITY.

Work of Securing Jury in  
Santa Ana Murder Trial is  
Slow Process.

(SPECIAL DISPATCH.)  
SANTA ANA, Oct. 18.—Temporary insanity, brought on by abuse and a life of many tragic incidents, will be the defense of Mrs. Nettie Campbell, charged with the murder of her husband, Jesse V. Campbell, at Balboa on June 27. It was indicated here today at the beginning of her trial.

The entire day was consumed in attempting to secure a jury. Several men seemed anxious to escape the duty of trying a woman for her life and were excused for cause. Eight jurors had been tentatively accepted when court adjourned at 5 o'clock. Work of securing a jury will be resumed tomorrow morning.

It became evident that the past life of Mrs. Campbell will be delved into deeply by both sides of the case. Men seemed anxious to escape the duty of trying a woman for her life and were excused for cause. Eight jurors had been tentatively accepted when court adjourned at 5 o'clock. Work of securing a jury will be resumed tomorrow morning.

\*\*\*\*\*  
SEARCH FOR OIL.

Experts Said to be Prospecting on  
San Miguel Island.

(SPECIAL DISPATCH.)  
SANTA BARBARA, Oct. 18.—Oil development on San Miguel Island, lying some forty miles off the mainland in Santa Barbara Channel, is forecast by visits made to the island during the last several weeks by geologists, said to be in the government employ.

The report that every indication shows that immense oil development on the island is possible, and that the seepage shows a high grade of paraffin-base oil, similar to that being encountered in the Ventura-avenue oil fields.

There is a heavy oil seepage from the sea bed extending from the island to a considerable distance into the channel. Whether the experts are seeking new sources of oil supply for the Navy or are representing one of the big oil companies is not known.

They have also looked over Anacapa and San Nicholas islands. Mr. Hamilton, one of the men, says he is from the Columbia University, and John N. Lawton, another, is said to be a New York capitalist. San Miguel, on which the largest oil seepage is found, comprises 14,000 acres.

BUSINESS PICKS UP.

Big Factory at Ontario Sends Ship-  
ment to East.

(SPECIAL DISPATCH.)  
ONTARIO, Oct. 18.—Markedly improved business conditions throughout the country were emphasized today when the Ontario plant of the Edison Electric Appliance Company shipped out the first complete carload of electric irons to go forward to eastern markets since the slump last spring.

The car contains 4,000 finished standard six-pound electric irons and is consigned to New York City, where the Edison Appliance Company has a branch office.

It is the first complete carload that the company has ever shipped from Ontario to New York. Where as the number of employees at the Ontario factory was reduced to less than 100 in the spring, more than 400 men and women are now employed full time and the number is constantly increasing. Besides irons, the factory is now busy with large orders for hollow ware, including percolators and similar utensils for the holiday trade.

Willis H. Booth, chairman of the executive committee of Edison Appliance Company, who is here from New York City on business, reports a very apparent improvement in conditions throughout the East.

MLENDON NOW  
POLICE CHIEF.

Former Detective Named as  
Department Head.

Split in Council Has Deferred  
Appointment.

Dr. McDonald Given Post as  
Health Officer.

(SPECIAL DISPATCH.)  
LONG BEACH, Oct. 18.—Clearing up a situation of unrest and uncertainty that has existed for months, Ben W. McLendon was today named permanent Chief of Police of Long Beach by the City Council. He was nominated for the office by City Manager Hewes. Dr. E. E. McDonald was named Health Officer, succeeding Dr. Ralph Taylor, health officer for the past eight years. Dr. McDonald's nomination was confirmed by the Council unanimously. The vote on McLendon was 6 to 1, Councilman Beck voting no.

There was no discussion preceding the action on the appointments, the matter having been previously threatened out by the Councilmen in executive session. Applause from the lobby and Council chamber greeted the naming of McLendon as Chief of Police.

Manager Hewes would have named McLendon permanent Chief of Police weeks ago, but held off hoping for unanimous action on the part of the Council. It was learned today that the appointment of McLendon is taken as a recognition of the fact that he has made good in the position since he has held it temporarily under circumstances that were a decided handicap.

His ability as an officer and an executive have both been demonstrated and among county and Federal officials he is regarded as one of the most efficient police officers in Southern California.

When notified of his permanent appointment, the Chief said: "I appreciate the confidence shown in me and will try to live up to it. Regardless of whether I receive the appointment, my determination to do my duty as a police officer to the best of my ability, co-operation is necessary to obtain results and I believe it will be given."

Reorganization of the morality and the liquor-enforcement squads of the force was announced by Chief McLendon. He declared a vigorous drive will be made to enforce the laws and ordinances.

McLendon was first appointed to the Long Beach police force June 30, 1912. With the exception of identification superintendent he served the remainder of his service. He was formerly an officer in El Paso, Tex., and in North Carolina, his native State.

"McLendon has a good many friends, and, of course, he has enemies," said Mr. Hewes. "I have always felt that he was painted blacker by his enemies than he should be. He now has the opportunity to show what he can do. I have known him only a few months, but I believe he is a very competent officer. I have gone into charges made against the Chief and feel they are not very strong. If his opponents had strong accusations, I ought to have presented them. This appointment will end proceedings against the Chief before the Civil Service Board. I am sorry the hearing could not have been concluded before the appointment, but we had waited so long and must move ahead with important matters."

Dr. McDonald, the new health officer, came to Long Beach a year and a half ago from Rock Springs, Wyo. He has been practicing his profession here and has an office in the Markwell Building. He resides at 218 Redondo avenue. Before locating in Rock Springs, Dr. McDonald lived in various cities in Wyoming in which State he resided twelve years.

He was surgeon for the Union Pacific Coal Company at Superior, Wyo., and was also acting division surgeon for the Union Pacific Railroad at Rock Springs. During one of a city health officer also was formed by him for a time in Wyoming. Graduated from the University of Nebraska with a medical degree in 1908. Dr. McDonald moved to Wyoming in 1908. He is married and has one child.

\*\*\*\*\*  
JOIN IN PROTEST.

County Officials, Farm Bureau Op-  
pose Railroad.

(SPECIAL DISPATCH.)  
SANTA ANA, Oct. 18.—The fight of ranchers against construction of a branch Union Pacific line from Richfield south through Olive, Villa Park, El Modena and Tustin, renewed recently, today had the sanction of the Orange county farm bureau and the board of supervisors of the city of Nebraska with a medical degree in 1908. Dr. McDonald moved to Wyoming in 1908. He is married and has one child.

The supervisors, in a resolution passed today, asked the State Railroad Commission to deny permission for construction of the new branch line for the reason that it would needlessly increase the number of dangerous grade crossings.

Ranchers oppose the road because they say it would needlessly cut up their valuable orchards without bringing resultant benefits, as the territory is already served by the Southern Pacific.

The proposed branch line has no connection with the main line of the Union Pacific which is to be built through Fullerton, Anaheim and Santa Ana.

\*\*\*\*\*  
QUICK THINKING  
SAVES BIG LOSS.

(SPECIAL DISPATCH.)  
ONTARIO, Oct. 18.—Presence of Mr. Ford displayed by Mrs. Sydney C. Ford, 327 West Emporia avenue, in promptly turning in a fire alarm when she observed two men fighting a losing battle with a blazing motor truck loaded with mattresses and comforters this afternoon saved the Pacific Cotton Mills Manufacturing Company, 115 West Main street, from the loss of several hundred dollars.

The truck engine caught fire while moving west on Emporia avenue, and stopped before Mrs. Ford's house. The fire department arrived and checked the flames with chemicals just before they reached the load of merchandise.

Long Beach  
Woman Ends  
Her Own Life.

(SPECIAL DISPATCH.)  
LONG BEACH, Oct. 18.—Mrs. Nettie Beggs, 33 years old, wife of E. S. Beggs, local tire and accessory dealer, ended her life this afternoon by shooting herself through the heart with a large caliber revolver in her apartment at 329 West Tenth street.

A brief note to her husband indicated that she had become dependent over financial affairs. Mrs. Beggs had just prepared a meal for her husband, who heard the fatal shot as he entered the door. The bullet pierced the heart and death was instantaneous.

Mr. Beggs told the police that his wife had suffered from severe pains in the head for several years and had often expressed the fear of losing her mind as a result of her unimproved condition. Mr. and Mrs. Beggs came to Long Beach four years ago from Kansas City, where Mrs. Beggs was prominent in society.

There are two children, Dorothy, 10, and Stanton, aged 3. The husband collapsed at the sight of his dead wife and is under a physician's care. The body of Mrs. Beggs was removed to the Holton & Son undertaking parlors. The death of Mrs. Beggs is the second suicide in Long Beach during the month of October to date. There were four suicides in this city during the month of September, the vital statistics show.

\*\*\*\*\*  
SANTA ANA LICENSES.

(SPECIAL DISPATCH.)  
SANTA ANA, Oct. 18.—Marriage licenses here: David Levitt, 24, Long Beach, and Evelyn G. Means, 20, Long Beach; Harry A. Taylor, 44, Los Angeles, and Elizabeth McGill, 43, Los Angeles; Roland George Bookman, 21, Balboa, and Cordelia Martha Hargard, 18, Los Angeles; William H. Nelson, 35, Los Angeles, and Martha Parker, 33, Los Angeles; Ralph T. Lindner, 17, Los Angeles, and Musetta A. Hopkins, 21, San Francisco; Frank Pousset, 22, Oceanside, and Cilma Oldendick, 21, Oceanside; Wallace R. Walman, 33, Los Angeles, and Dorothy Heuck, 18, Los Angeles; Jesse F. Yawter, 41, Los Angeles, and Ruth P. Lang, 46, Los Angeles.

\*\*\*\*\*  
UNEXPECTED DEATH.

(SPECIAL DISPATCH.)  
POMONA, Oct. 18.—W. S. Reed, 310 South Reservoir street, dropped dead this morning while splitting wood. He was found a short time later by his son-in-law, M. C. Howard, 844 East Tenth street. His exertion on a warm morning was evidently too much for the aged man, who was 77 years of age. He is survived by a wife and seven children.

## ON ADVERTISING IN NEWSPAPERS.

Experts Talk at Luncheon of  
Los Angeles Club.

Daily Journals Called Best  
National Medium.

Business Declared Dependent  
on Publicity.

"National Newspaper Advertising" was the principal topic at a luncheon of the Advertising Club of Los Angeles in the ballroom of the Alexandria yesterday noon, attended by 320 members and guests.

William A. Thomson, director of the bureau of advertising of the American Newspaper Publishers' Association, and William F. Rogers, business manager of The Boston Transcript and chairman of the committee in charge of the bureau of advertising, were the principal speakers. Harry Chandler, president and general manager of The Times-Mirror, spoke briefly on "Los Angeles Prosperity—The Outgrowth of Advertising."

Through the courtesy of the Orpheum Theater the Quixley Four, "The Boys With Pep," entertained the guests with songs and Sammy Lee and four attractive young women danced and sang.

**ALLOWS NO LULL.**  
Bert Butterworth, president of the club, allowed not one moment of lull during the luncheon hour. Speakers were introduced by Irving R. Smith, chairman, who held the session within the scheduled closing time of 1:30 p.m.

"The sensible fighter of prevailing conditions throughout the country has been the newspaper advertiser," said Mr. Thomson in announcing the fact that the national association, of which he is president, is consummating plans to open an office on the Pacific Coast. The reason he gave for not locating the office in Los Angeles was, "that this city is so wide awake and up-to-the-minute in every respect that missionary work is not necessary here."

Continuing, the speaker said: "Under present conditions the wise merchant has come to look upon advertising as a pinch-hitting opportunity—the one thing that will save the day, realizing that advertising is no longer a speculative venture but has been reduced to an exact science. Proof of this is exemplified by an increase of 400 per cent in the amount of national advertising during the last ten years. Papers of the country today print 200,000,000 inches of purely national advertising."

**NEWSPAPER SUPREME.**  
"The newspaper is now recognized

## COUNCIL GETS PLEASANT NEWS.

City Clerk Needs Help to  
Mail Out Notices, but Has  
Money to Pay for It.

Members of the City Council brightened up considerably yesterday and with difficulty refrained from giving three rousing cheers when a communication was read from City Clerk Dominguez stating that he requires additional help to mail out 18,000 notices to property owners, but that it will not be necessary to appropriate any funds, as he has saved more than enough money in his office to pay for the extra work. The notices are to be sent to the property owners in the Arroyo de la Sacatella district, who are to be assessed for the building of a storm-drain system in the northwest part of the city.

as the universal medium of advertising, reaching the great mass of the public every day, everywhere. It has become a fixed habit of the reader who seeks his paper with avidity in the morning and hungry interest in the evening and who every day of his life either swears by or curses his newspaper."

Interesting statistics quoted by the speaker showed that there are 2038 newspapers printed each working day reaching a circulation of 23,000,000 persons and 816 Sunday issues with a circulation of 16,000,000.

"Elasticity is the latest development of the science of national advertising," he continued. "One manufacturer spent \$2500 in one day for telegrams to alter his national advertising in order to meet a condition that had arisen over night." Supporting the contention that newspaper space is the cheapest of all advertising mediums, Mr. Thomson said to send a postcard to 28,000,000 persons would cost \$280,000, an amount sufficient to carry a full-page advertisement one day in every newspaper in the country.

**COLLECTION OF MARKETS.**  
Advertisers have learned that the country is no longer to be considered as a single unit, but as a collection of markets. He went on to explain that California is known as a peerless market for electrical appliances, due to the fact that 87 per cent of the homes in this State are wired for electricity, as against some other State that may show only 7 per cent of the homes wired.

"Your local merchant knows that newspaper advertising is the stabilizer of his business and that when business is hard to get, this stabilizer is the only certain medium through which the faltering business can be secured."

In closing Mr. Thomson asserted that the object of the Coast branch office of his association is to create new markets for the manufacturers between here and the Rocky Mountains and to crystallize and definitely establish the group of markets of that territory.

**PRAISES LOS ANGELES.**  
Mr. Rogers spoke of the solid co-operation of Southern California producers in all commercial advancement and particularly of the union of interests in all civic matters in Los Angeles.

"Your get-together spirit reminds me of the magnificent forest I viewed in crossing the Cascade trees flanking each other to stand tall and straight, a phalanx of strength, capable of meeting any emergency," he said. "Your development has been so phenomenal that I may say, it is not possible for you to overadvertise your country here."

"Specialization is the all-important movement of the day in California advertising," said Mr. Chandler. "The Orange Growers' Association spent \$500,000 this year and through that vital decision established fair markets and a profit for its business. The same truth applies to raisins and California is rapidly reaching the point where special advertising calling for special advertising will supply the total demand of the United States for figs, dates, walnuts, prunes and other products and, if we are granted a reasonable protective tariff, for lemons and oranges."

**U.S.C. "AD" LESSONS  
TO BEGIN TOMORROW.**  
FIFTEEN LECTURES WILL BE  
GIVEN BY EXPERTS TO  
STUDENTS HERE.

Fifty-five students of advertising at the University of Southern California will receive their first lesson in methods and practice of the profession at 8 a.m. tomorrow, when Elliott C. Hensel, advertising manager of the Stewart-Dawes Shoe Company, and former president of the St. Paul Advertising Club, will begin the series of fifteen "brass tacks" talks arranged by Marc N. Goodnow, director of journalism and advertising. Mr. Hensel's subject will be "Analyzing the Market for Advertising." Subsequent talks will be given by fourteen other prominent advertising men of Los Angeles.

The schedule of lectures will include the following subjects: Typography, engraving, color and ink, lithography, agency advertising, paper making, copy writing, department store advertising, store demonstrations, direct mail advertising, commercial art, novelties, the truth in advertising movement. Among the speakers, besides Mr. Hensel, will be the following: C. W. Clay, H. E. Miller, E. Maynard Harrison, Dwight Jennings, Victor E. Hecht, Ralph Garnier, Harry S. Carroll, Percy Copeland, Sylvester Hoffman, Harry T. Watson, Arthur Beaumont, E. F. Twomey and F. R. Miller.

Out-of-town trips are being scheduled by the director of journalism and it is expected that at least six junkets will be taken.

**BENEFIT FOR WHITE  
PLAGUE SUFFERERS.**

A benefit performance for the Jewish Consumptive Relief Association will be held November 20 at the Philharmonic Auditorium. Sid Grauman and his musical director, Mischa Guterson, are arranging the program. The maintenance of the institution requires about \$150,000. An attempt is being made to raise from \$10,000 to \$15,000 to fill the present deficit.

# Garment Week

Concentrates on High Quality—Resulting In  
This Presentation of Exclusive Models

Allowing the Privilege of Choice From a  
Widely Varied Group of Distinctly Fine  
**SILK FROCK FASHIONS**  
**49.75**

Such delightfully whimsical ways Fashion has found this season to emphasize the beauty of the new materials—the charm of new fashions and the appeal of new colors. Each finds adequate expression in a Garment Week group of this kind—limited to the "better

frocks" for women and misses. There are rich crepe, Canton crepe and soft charmeses richly creped with crystal beads or gay embroidery. Of course, you find—and the warm fall shades, so often neglected in groups of less variety.

Extensive Preparation Finds Hamburger's in Readiness  
for Garment Week With Dresses in Wide Variety  
**21.50 to 150.00**

Silk and woolen frocks—so many types—so many charming fashion innovations that had we pages upon pages in which to tell you of them—mere words would fail to disclose the secret of their beauty. A frock for every type and every size—both misses and women.

## "Baby Day" Sale "Patsy" Frocks and Rompers

**5.00 Corduroy "Patsy" Rompers**

So soft and warm for fall days—made regulation Patsy style, peg top, square neck and short sleeves. Finish of handwork makes them the most remarkable at the Baby Day pricing. Several pretty colors, sizes 2, 3 and 4 year.

**Babies' Hand-Made Long Dresses, 1.15**

—beautifully made, too, with all the care that any fond mother could give them. Dear little dainty dresses with lace about the neck and sleeves—so far below their actual worth at this Baby Day marking as to prompt every mother to buy while the saving is possible.

**Diapers, 1.45 Dozen Silk, Wool Vests, 1.05**

Large size, Red Star diapers, 2x3-4— all hemmed and washed ready to use as soon as they are taken from the sanitary package in which they are wrapped. A Baby Day value—At 1.45, because the usual price is 2.00.

Double breasted—and well made as every mother knows who has ever seen vests at Hamburger's. Dainty shell stitching finishes the neck—regular 1.50 values.

(Hamburger's—Baby Shop—Second Floor—Today)

**2-Piece Mandarin Party Frocks, 4.45**

Again there is choice of the practical tubular corduroy in several colors—and sizes 2 to 6. Really, truly frocks—these are—to wear, just every place—the mandarin style top and pants for the second piece. These, too, made the daintier with handwork. Surprise values at...

## Toys, Dolls and Wheel Goods 20% Less Balance of this Week Only

To encourage early Christmas shopping, Hamburger's announces a reduction of 20% on all toys, dolls and wheel goods, except the manufacturer—restricted Meco Sets and Symplex typewriters. When such an opportunity is given the mothers of Los Angeles to choose their Christmas purchases from that are new, fresh and variety is complete, and at a reduction of 20%, it is needless to say the large toy department on the fourth floor has been crowded during the past two days.

Toys purchased now will be held for delivery or sent prepaid anywhere in the United States.
